### Dark Blue Medium Fire Pit Glass

Some people are night owls. They prefer gazing at the stars over covering their eyes from the sun and would rather hear the quiet chirping of crickets than the sometimes boisterous songs of birds. But many of them just find comfort in the dark blue of the night sky. For such night lovers, we introduce our gorgeous dark blue medium fire pit glass!

Made from recycled glass, these 1/2" - 1" dark blue glass pieces really do remind one of the night sky and when added to your customers' outdoor fire pit, they will automatically draw everyone's attention. Possessing the same blue shade of our dark blue small fire pit glass, this variety is chunkier allowing for better air circulation and delivering a larger, more impressive flame. When the fire pit is lit this beautiful glass will glitter and reflect the colors of the flames, quickly becoming the focus of all conversations.

#### **Not Just for Beautifying Fire Pits!**

Even if your customers do not own a fire pit, there are still many ways they can use our fire pit glass to beautify their homes. This lovely glass can be used for landscaping, near water features, or even added to aquariums! It may be used alone, or mixed with fire pit glass of other shades to give a truly unique look.

#### **Practical, Safe & Long Lasting!**

Furthermore, our dark blue medium fire pit glass is not just beautiful to look at, but also very practical. It does a great job of covering the entire bottom surface of a fire feature, hiding those unseemly pipes and tubes which are often visible in gas fire pits. This makes it a great alternative to the more common ceramic logs and fire stones.

All of our fire pit glass has been manufactured to withstand extreme temperatures and harsh weather without sustaining any damage or discoloration. Our tempered fire glass is not tumbled which ensures an enhanced shine. Used correctly, this amazing glass could last your customers a lifetime!

Another significant advantage of fire pit glass is that it does not emit any harmful chemicals, smoke, soot, or ash, which means it is very easy to maintain and requires hardly any cleaning!

If your customers love the night, they will love our dark blue medium fire pit glass!

## Dark Blue Medium Fire Pit Glass Specifications
