Ice Medium Fire Pit Glass

When the heat of the summer kicks in, everyone starts looking for some ice to cool down. This summer, help your customers create a truly stunning display... a display of fire dancing on top of the ice! With our ice fire pit glass, it's possible...

Made from recycled glass, these lovely 1/2" - 1" glass pieces really do appear like regular, household ice. However, when your customers light up their fire pit, this amazing fire glass suddenly turns into a breathtaking illusion of hot burning flames dancing on cold wet ice! All eyes will be drawn to the dazzling contradiction, as well as the conversations. Your customers are sure to receive a fair share of compliments!

Similar to our ice small fire pit glass, this medium variety is bigger and chunkier, allowing for better air circulation and delivering a bigger and more impressive flame.

Not Just for Beautifying Fire Pits!

Even if your customers don't own a fire pit, there are still many uses for our amazing ice medium fire pit glass. It can be used in the garden for landscaping, or added to an aquarium for a more offbeat look! If your customers want to take things a step further, they can mix this glass with other shades in order to create a really unique display. Encourage them to let their imagination run wild!

Practical, Safe & Long Lasting!

Our fire pit glass is more than just beautiful! It also does a great job of covering the entire bottom surface of a fire pit, hiding those unseemly pipes that are often visible in gas fire features. This makes fire glass a much more desirable alternative to the more common ceramic logs and fire stones.

All of our fire pit glass has been manufactured to withstand extreme temperatures without any discoloration or damage. Our tempered fire glass is not tumbled which ensures an enhanced shine.

Used correctly, this amazing product could last your customers a lifetime!

Another big advantage of fire pit glass is that it does not emit any harmful chemicals, smoke, or ash, which makes it very easy to maintain!

Help your customers amaze their friends and family with our ice medium fire pit glass!
