GUARANTEE

All products are guaranteed to be free of defective material and workmanship for the period of one year from date of invoice. During that period, if any parts prove defective, they will be repaired or replaced free of charge at factory option; if upon receipt of a return authorization, they are returned delivered prepaid to the factory. This guarantee does not however, cover any damage caused by neglect of lubrication, accident or overload, improper installation, modification of original design or repairs made or attempted outside of the factory without written authorization from Artis Metals Company, Inc.

Correction of any verified defects by repair, replacement F.O.B. the Artis Metals Company, Inc. factory or credit to customer's account shall constitute fulfillment of the guarantee. No cash or check refunds will be issued.

ALL PRICES INCLUDED WITHIN ARE SUBJECT TO CHANGE WITHOUT NOTICE

CUSTOMIZATIONS & SPECIAL PACKAGING

If you need custom product or a modification to one of our existing products please feel free to contact us. We will be happy to look at your specifications and offer a quote. Some restrictions may apply.

There are several new custom powder coating colors available to choose from. Please see our website for pricing and colors available. We also offer color matching. Supply us with the brand of color, color code or send us a sample of the color you wish to match and we will find the closest match.

We offer special packaging to our customer's specification by request as well. This may incur an additional charge. Please contact us for more information.

VACUUM CAP

VACUUM TILE CAP

2012 LIST PRICES

VACUUM CAP

The Artis Vacuum Cap is Artis Metals Company's flagship vent cap for use with fossil fuel chimneys. It is designed to prevent downdraft and poor draws created by wind. When the wind blows across the side gores, the cap creates a vacuum at the base, pulling air and/or fumes from the pipe and out through the cap.

ORDERING INFORMATION

CATALOG NUMBERS:	Please use our catalog numbers and descriptions when ordering to help avoid confusion or delay. Most catalog numbers denote the size and gauge of material used.
MULTIPLIERS:	Multipliers are a percentage off of the list prices in this book. All special orders are quoted at net price and are not eligible for multiplier discounts. Multipliers are established at the start of each year. If a change in multiplier is necessary, you will be notified prior to the change being made.
MATERIALS:	Most catalog numbers denote gauge of material but if a special gauge material is needed, please be sure to specify when ordering (Example: GVC 626—The 26 at the end of the catalog number denotes 26 gauge material). Most items are available manufactured from special materials; copper, stainless steel and powder-coated. Please inquire which items are available in these materials. Various screen sizes are also available; Galvanized 1/8", 1/4" and 1/2", Aluminum 1/8" mesh, Stainless Steel 1/8", 1/4" and 1/2", Copper 1/8" and 1/4". 1/4" screen is standard. Specify when ordering if a different screen size is desired.
OVERSIZE CARTONS:	Certain cartons because of their size are rated at cubic inches rather than weight. Parcel companies are using Oversize 1 which is rated at 108 cu. In. or 30 lbs and Oversize 2 which is rated at 130 cu. In. or 70 lbs. On cartons sized as OS2 we check the cost with LTL carriers to find the cheapest way to ship.
RETURN POLICY:	A 20% restock charge will be assessed on all items approved for return to stock. A return authorization number will be required for all items returned and return freight will be prepaid by the customer. All items must be in new/undamaged condition for resale in order to obtain credit. All items returned will be for merchandise credit only. Special order/non-catalog item sales are final and will not be accepted for return. Return authorizations will expire 30 days after issue and returns will not be accepted nor will credit be issued past that time. NO REFUNDS, CASH OR CHECK WILL BE ISSUED.
CANCELLATIONS:	Once purchase order material is in process the purchase order cannot be cancelled. If a purchase order must be cancelled, all production costs incurred from the date the purchase order is placed to the date of cancellation will be the customer's responsibility.

DELIVERY TERMS

FREIGHT POLICY:	All orders shipped below free freight minimums will be prepaid by Artis Metals Company (to provide customers with our freight discounts) and added to the customer's invoice unless otherwise specified. All Next Day, Second Day and Third Day shipments will be prepaid and added to the customer's invoice and are not included in our Free Freight Allowance. It is the customer's responsibility to provide accurate shipping information. Any necessary address corrections made and charged for by freight companies will be billed back to the customer in the event of an incorrect or incomplete address.
ROUTING:	All orders will be shipped the most cost effective way unless otherwise specified by the customer. If the customer chooses their own freight company that customer will be responsible for all freight charges. This may include any freight service charge or prepaid freight charges being added to the customer's invoice. All free freight allowed orders will be shipped best way according to the discounts we receive from our carriers.
UPC CODING:	We offer an Excel Spreadsheet containing all of the UPC Codes for our products. You can request a copy of the spreadsheet to be e-mailed to you by calling, faxing or e-mailing Artis Metals Company, Inc. We also offer product UPC labeling services at customer's request.
