

NEW ARRIVAL

LTE+ Gas Griddle

Starting at \$2,299 MAP

An upgraded griddle for backyard chefs of all levels, the Blaze 30-Inch LTE+ includes new and improved features, as well as an enhanced cooking surface. In other words, it's a premium cooking experience.

With strategic enhancements found across the entire Blaze LTE+ lineup, this griddle is ready to be the beating heart of your outdoor kitchen.

Available in freestanding or built-in models.

Updated Features

- New control panel with knobs that shine red when gas is flowing for added safety.
- Drop-in-place drip trough simplifies grease management for effortless cleanup.
- Integrated leveling screws can adjust the surface according to foods being cooked.

Superior Construction

- Reinforced cooking surface ensures performance at even the highest temperatures.
- 304 stainless steel construction with a double-walled, attached lid.
- 2 18,000 BTU burners offer premium ultra-efficient cooking power.

Effortless by Design

- Larger peepholes allow for safe and clear monitoring of the burners.
- Cushioned sound dampers prevent the attached lid from ever slamming closed.
- Stylish curved handle offers an elegant look and makes lifting the lid easy.
