EZ-FLO: INNOVATIVE INJECTION...

EZ-FLO was founded by **Dan Gilmore** and started as a seedling in his mind while he was fertilizing his yard. Tired of spending too much time on watering and fertilizing his greenery, Dan wanted to create something that could take care of his lawn by itself. This led to the birth of a simple, automatic, proportional injection system that saves time and effort. Over the years, EZ-FLO has grown from a garage project to a leader in injection equipment, serving professional, retail, and international markets. Today, EZ-FLO is proud to be adopted by everyone, from homeowner associations to whole cities, and is still driven by its founder's passion for making life easier for garden enthusiasts.

V. QUICK REFERENCE GUIDE

EZ-FLO INJECTION

The EZ-FLO Injection system is an innovative solution designed to make the process of fertilizing landscapes faster, easier, and more efficient. With the EZ-FLO system, you can treat a six acre park or a home landscape in minutes versus hours, making it a highly efficient solution for large and small landscapes alike. By delivering fertilizer directly through the irrigation system, EZ-FLO eliminates the need for manual spreading and reduces the amount of water and labor required. With its ability to deliver the right amount of fertilizer to your plants, EZ-FLO ensures consistent and accurate coverage for optimal plant growth. Additionally, the system is compatible with a wide range of irrigation systems, making it a versatile solution for a variety of applications, from home landscapes to agricultural operations. With EZ-FLO, you can achieve better results with less effort, saving time and resources.

Works with all types of irrigation: Rotor, Spray, Drip, & Many More

THE PROBLEMS : TRADITIONAL FERTILIZATION METHODS

Reducing bulk: Excessive application of any fertilizer, synthetic or organic, will cause harm. Keep in mind, organic literally stands for organic chemical.

Inaccurate: Manual spreading of fertilizer can be inconsistent, leading to missed spots or buildup in others, which can affect the health of your plants.

Time-consuming: Fertilizing your landscape manually can be a time-consuming process, especially if you have a large area to cover. It also requires watering in the fertilizer to prevent foliage burn, which can take even more time.

Tedious: Fertilizing manually can be a tedious and back-breaking process that can take away from your weekends and other activities.

BIG FEATURES. BIGGER BENEFITS

Spend Less, Grow More

- EZ-FLO improves soil fertility so you need 20-50% less water and fertilizer.
- This means smaller and lighter tanks that don't need to be filled up as often.

Set it and Forget it

- Our Main Line Systems connect to your in-ground sprinkler or drip irrigation system.
- Now you can set it up, adjust the feed rate and never miss a feed again!

Eco-Friendly Design

- Our smart solutions means it's hard to over-fertilize.
- No waste, no leftovers - you aren't contributing to fertilizer runoff.
- EZ-FLO is a small but significant change in your fertilization routine that can help save ecosystems in America's rivers and oceans.

User Friendly

- EZ-FLO is designed to be easy so anyone can maintain their landscape like a pro.

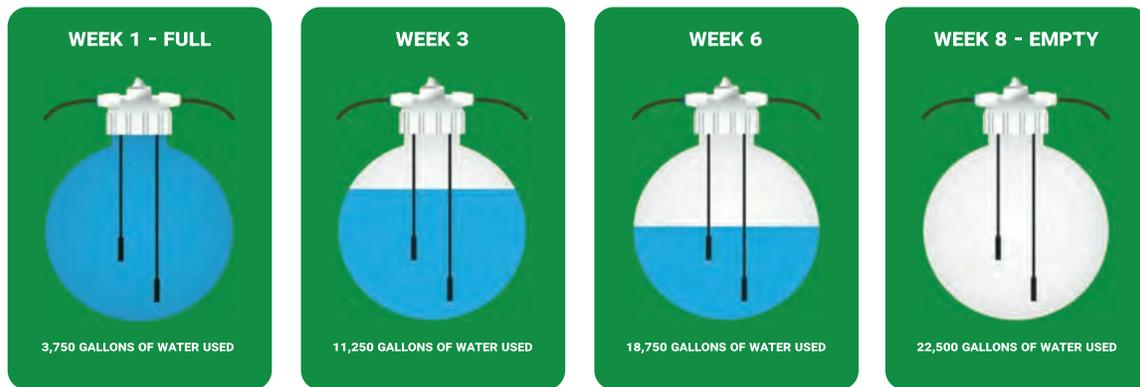

EZ-FLO TECHNOLOGY

Our patented process is centered around the controlled delivery of products over a period of time. EZ-FLO can deliver a solution within minutes or weeks from the same system without the need for complicated adjustments or programming.

The EZ-FLO Dynamic Suspension process stratifies the solution into layers preventing dilution. Layering technology allows products to be consistently applied over weeks to take full advantage of the beneficial micro-dosing approach.

INDEPENDENT NPK ANALYSIS
(BASED ON THE SLOW SETTING)

EZ-FLO SUSTAINABILITY

By using the EZ-FLO system you are committing to a path of sustainability. The EZ-FLO system is proven as a more efficient method to apply products to the landscape. When compared to traditional methods such as dry broadcast, nutrient uptake generally increases from 20% to as high as 98%. Regardless of the product being applied, this increase provides the necessary efficiency gain required by modern sustainable initiatives, so we may all do more with less.

SIZING THE TANK

To keep the process simple, we follow a straight forward sizing method that focuses on the irrigated area only for a 4 to 8 week refill period. This ensures you will have ample capacity for a wide range of products.

Quick Sizing:

One Pound of Water Soluble Fertilizer Per 1000 SQFT of Landscape (Irrigated area)

Example:

75,000 SQFT Landscape (50,000 SQFT of Turf & 25,000 SQFT of Trees & Shrubs)

1 pound of capacity per 1,000 SQFT = 75,000 / 1,000 = 75 LBS of Capacity Needed

QUICK SIZING REFERENCE CHART:

MODEL SKU	CAPACITY (GALLONS)	CAPACITY (POUNDS)	SQUARE FEET (SQ. FT)	UNIT SIZE (L X W X H)	VALVE BOX SIZE (L X W X H)
EZ001-CX	1.5	10	10,000	8" X 13" X 11"	14" X 19" X 12"
EZ003-CX	2.5	15	15,000	8" X 21" X 11"	13" X 24" X 12"
EZ005-FX	4.5	30	30,000	10" X 28" X 13"	17" X 30" X 18"
EZ010-FX	8.5	50	50,000	12" X 27" X 14"	17" X 30" X 18"
EZKIT-1	1.75	17.5	17,500	10" X 14" X 11"	12" X 20" X 12"
EZKIT-3	2.5	25	25,000	10" X 22" X 11"	13" X 24" X 12"
EZKIT-5	5	50	50,000	12" X 27" X 14"	17" X 30" X 18"
EZ010-HC	10	75	75,000	12" X 32" X 18"	24" X 36" X 24"
EZ017-HC	17.5	150	150,000	15" X 36" X 20"	24" X 36" X 24"
EZ025-HC	23	225	225,000	19" X 36" X 23"	24" X 36" X 24"
HF-086	86	800	800,000	28" X 28" X 72"	ABOVE GRADE

Using the chart above the EZ010-HC is ideal for this 75,000 SQFT application. Want to refill less often, the EZ017-HC will last twice as long. Smaller tanks may be used to meet budgetary requirements but may require more frequent refills.

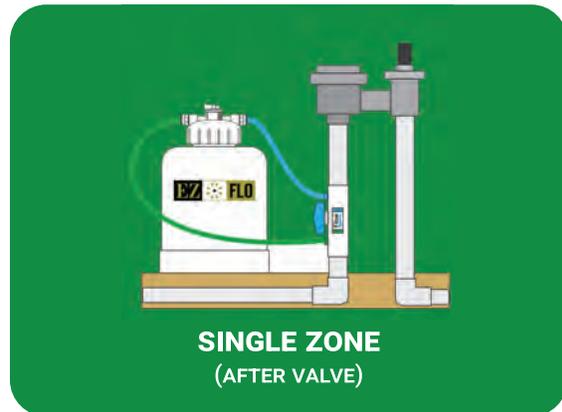

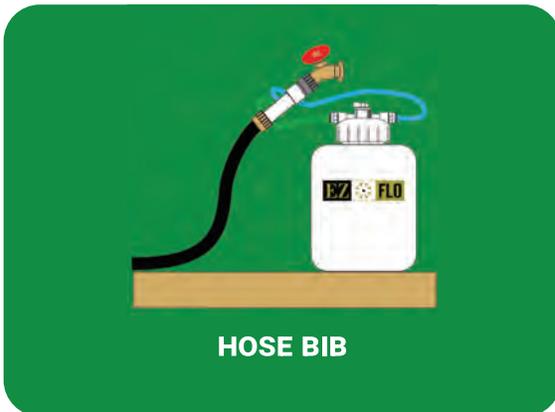

GARDEN HOSE BIB SYSTEMS

Economical and simple injection options for a wide variety of applications. Used most commonly on small garden drip systems, our Garden Series Injectors have proven to be a versatile tool for the hobbyist and professional alike. Hand water lawns, drench trees, or add a level of sophistication to your garden or drip zone. The 1000 Series injectors don't need depressurization and offer cost-effective performance. Choose based on personal preference and needs.

Comes complete with all parts necessary for garden hose installation. CBV connection for single zone use sold separately. Pressure regulation may be required for 2005-HB and 2020-HB models.

- Backyard Hobbyist & Enthusiasts
- Low Cost Fertigation / Injection
- Vegetable Gardens
- Targeted Product Applications

EZ-FLO HOSE BIB 0.75 GAL.

SKU: EZ 2005-HB

FILL CAPACITY	UP TO 0.75 GAL. OR 5 LBS
DIMENSIONS	7" X 7" X 10"
COVERAGE	10,000 SQ. FT.
FLOW RANGE	2.5 GPH - 35 GPM
PRESSURE RANGE	5 PSI - 50 PSI
CONNECTION	3/4" GHT PVC INCLUDED

EZ-FLO HOSE BIB 2.5 GAL.

SKU: EZ 2020-HB

FILL CAPACITY	UP TO 2.5 GAL. OR 10 LBS
DIMENSIONS	10" X 10" X 16"
COVERAGE	20,000 SQ. FT.
FLOW RANGE	2.5 GPH - 35 GPM

STANDARD CAPACITY SYSTEMS

Our first offering for application of products to the entire irrigation system. The time tested and proven workhorse of the EZ-FLO Injection Systems product line. Standard Capacity Injection Systems have been used for over 20 years in applications ranging from residential homes, to cities and sports fields. Main line rated and engineered for years of trouble free service. The professionals choice for fertilizer and supplement injection equipment, these systems are designed to service the entire landscape.

- Versatile product application
- Superior capacity handling
- Four size options for flexibility
- Cost-effective solution for irrigation.

EZ-FLO MAINLINE 1.5 GAL.

SKU: EZ001-CX

FILL CAPACITY	UP TO 1.5 GAL. OR 10 LBS
DIMENSIONS	8" X 13" X 11"
VALVE BOX SIZE	14" X 19" X 12"
COVERAGE	10,000 SQ. FT.
FLOW RANGE	2.5 GPH - 300 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	N/A

EZ-FLO MAINLINE 2.5 GAL.

SKU: EZ003-CX

FILL CAPACITY	UP TO 2.5 GAL. OR 15 LBS
DIMENSIONS	8" X 21" X 11"
VALVE BOX SIZE	13" X 24" X 12"
COVERAGE	15,000 SQ. FT.
FLOW RANGE	2.5 GPH - 300 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	N/A

EZ-FLO MAINLINE 4.5 GAL.

SKU: EZ005-FX

FILL CAPACITY	UP TO 4.5 GAL. OR 30 LBS
DIMENSIONS	10" X 28" X 13"
VALVE BOX SIZE	17" X 30" X 18"
COVERAGE	30,000 SQ. FT.
FLOW RANGE	2.5 GPH - 300 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	135 PSI

EZ-FLO MAINLINE 8.5 GAL.

SKU: EZ010-FX

FILL CAPACITY	UP TO 8.5 GAL. OR 50 LBS
DIMENSIONS	12" X 27" X 14"
VALVE BOX SIZE	17" X 30" X 18"
COVERAGE	50,000 SQ. FT.

EZKIT SYSTEMS

Built upon the standard capacity mainline injection system platform, the EZKIT systems offer a distinct advantage to any total landscape application. Utilizing the proprietary fill system implemented on the EZ-FLO High Capacity product line, the EZKIT provides double the water soluble product capacity of the Standard Capacity injection systems. This means either less frequent refills or a larger service area from a more compact package. If using liquid products, no problem, the fill system adds value here as well. The addition of an integrated drain valve and separate fill port makes refilling faster and cleaner than ever. No tanks to tip over or tubes to disconnect.

Currently offered in 3 sizes, the EZKIT is a needed, convenient, compact addition to the EZ-FLO product line.

EZKIT 1.75 GAL.

SKU: EZKIT-1

FILL CAPACITY	UP TO 1.75 GAL. OR 17.5 LBS
DIMENSIONS	10" X 14" X 11"
VALVE BOX SIZE	12" X 20" X 12"
COVERAGE	17,500 SQ. FT.
FLOW RANGE	2.5 GPH - 300 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	N/A
CONNECTION	CBV-100 INCLUDED

EZKIT 2.5 GAL.

SKU: EZKIT-3

FILL CAPACITY	UP TO 2.5 GAL. OR 25 LBS
DIMENSIONS	10" X 22" X 11"
VALVE BOX SIZE	13" X 24" X 12"
COVERAGE	25,000 SQ. FT.
FLOW RANGE	2.5 GPH - 300 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	N/A
CONNECTION	CBV-100 INCLUDED

EZKIT 5 GAL.

SKU: EZKIT-5

FILL CAPACITY	UP TO 5 GAL. OR 50 LBS
DIMENSIONS	12" X 27" X 14"
VALVE BOX SIZE	17" X 30" X 18"
COVERAGE	50,000 SQ. FT.
FLOW RANGE	2.5 GPH - 300 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	135 PSI
CONNECTION	SOLD SEPARATELY

HIGH CAPACITY SYSTEMS

The High Capacity range of products adapts our main line systems to fit the needs of larger applications. Identical to the EZKIT version of the EZ-FLO systems, all HC models include the proprietary fill system allowing the tanks to double their water-soluble capacity. Slightly different from the KIT, the HC incorporate a few extra features to adapt to the extra duty of larger irrigation systems. SCH 80 components coupled with automatic air venting valve and pressure relief valve ensure durability under harsh conditions. The HC models are offered in three sizes and typically service larger landscapes up to 6 acres.

- More Powder Capacity
- Faster Refill
- Larger Coverage
- Less Labor (Treat 6 Acres in 6 Minutes)

EZ-FLO HC 10 GAL.

SKU: EZ010-HC

FILL CAPACITY	UP TO 10 GAL. OR 75 LBS
DIMENSIONS	12" X 32" X 18"
VALVE BOX SIZE	24" X 36" X 24"
COVERAGE	75,000 SQ. FT.
FLOW RANGE	2.5 GPH - 2000 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	135 PSI

EZ-FLO HC 17.5 GAL.

SKU: EZ017-HC

FILL CAPACITY	UP TO 17.5 GAL. OR 150 LBS
DIMENSIONS	15" X 36" X 20"
VALVE BOX SIZE	24" X 36" X 24"
COVERAGE	150,000 SQ. FT.
FLOW RANGE	2.5 GPH - 2000 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	135 PSI

EZ-FLO HC 25 GAL.

SKU: EZ025-HC

FILL CAPACITY	UP TO 23 GAL. OR 225 LBS
DIMENSIONS	19" X 36" X 23"
VALVE BOX SIZE	24" X 36" X 24"
COVERAGE	225,000 SQ. FT.
FLOW RANGE	2.5 GPH - 2000 GPM
PRESSURE RANGE	5 PSI - 80 PSI
PRESSURE RELIEF VALVE	135 PSI

ENGINEERED SYSTEMS

The Engineered product line offers EZ-FLO's proven simplicity to applications that require more capacity, higher operating pressure, and precision control. Utilizing a fiber wrapped pressure tank, the capacity to weight ratio is reduced 6 times while increasing durability. Coupled with a wide range of available flow meters, almost any injection rate can be met to fit the project requirements. The system is 100% field repairable and like all EZ-FLO products does not require electricity or moving parts to operate.

The Engineered systems are ideal for fertilizers, acids, or wetting agents.

- Biggest Systems
- Highest Level of Control
- Parks, Cities, Stadiums, etc.

EZ-FLO ENG 86 GAL.

SKU: HF-086

FILL CAPACITY	UP TO 86 GAL. OR 800 LBS
DIMENSIONS	28" X 28" X 72"
VALVE BOX SIZE	40" X 40" X 80"
COVERAGE	800,000 SQ. FT.
FLOW RANGE	25 GPH - 8000 GPM
PRESSURE RANGE	5 PSI - 125 PSI

EZ-FLO ENG STEEL ENCL.

SKU: HF-ENC

MODEL	FOR EZ-FLO ENG 45 GAL. OR EZ-FLO ENG 86 GAL.
DIMENSIONS	40" X 40" X 80"
WEIGHT	300 LBS

SYSTEM CAPABILITIES

EZ-FLO offers a broad range of injection systems to meet different application needs. In this comparison, we will highlight the key differences between the Garden Hose/Drip, Mainline, EZKIT, High Capacity Systems, and Engineered Systems.

- Garden Hose/Drip system is suitable for garden hose bib or hand watering.
- Mainline system is a commercial grade injector for landscape irrigation.
- EZKIT offers a proprietary fill system for easier refilling.
- High Capacity Systems are designed for larger landscapes.
- Engineered system is the largest package with a high pressure rating of 125 PSI and customizable gauges.
- Each system has unique features and benefits, and the right one depends on the specific needs of the landscape.

FERTILIZERS & SUPPLEMENTS

By using the EZ-FLO system you are committing to a path of sustainability. The EZ-FLO system is proven as a more efficient method to apply products to the landscape. When compared to traditional methods such as dry broadcast, nutrient uptake generally increases from 20% to as high as 98%. Regardless of the product being applied, this increase provides the necessary efficiency gain required by modern sustainable initiatives, so we may all do more with less.

FERTI-MAXX WATER SOLUBLE FERTILIZERS

When you want a balance of maximum effectiveness and efficiency, but don't want to sacrifice high quality, choose our water soluble fertilizers. Compared to granular fertilizers, they have less salts, fewer impurities, and are formulated with a mix of organic and safe synthetic plant nutrients to be as eco-friendly as possible. They're also dry, so they're easy to store and mess-free to measure and pour.

This makes them an ideal choice for gardeners and landscapers who want to keep their plants looking healthy and beautiful. With consistent use, you can expect improved root systems and more beautiful plant color and size. These fertilizers are a must-have for anyone who wants to take their landscape to the next level.

- Eco-friendly
- Top-notch results
- Potent and efficient

FERTI-MAXX LANDSCAPE (23-13-8)

SKU: FM LANDSCAPE - 25

Designed as a high growth product for rapid landscape maturation and development.

- Boosted with Maxx-Products proprietary organic blend
- Excellent general purpose growth blend
- Effective in spring, summer and hot weather

COVERAGE RATE: 50,000 sq ft per bag per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

FERTI-MAXX TURF (26-6-16)

SKU: FM TURF - 25

Designed as a high growth product for rapid turf recovery and repair.

- Boosted with Maxx-Products proprietary organic blend
- Slow release Nitrogen for lasting performance
- Effective in warm and hot weather

COVERAGE RATE: 50,000 sq ft per bag per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

FERTI-MAXX STARTER (8-18-28)

SKU: FM STARTER - 25

Designed as a transplant and winterizing blend to protect your landscape investment.

- Boosted with Maxx-Products proprietary organic blend
- Nitrate Nitrogen with high Phosphorous and Potassium for early stage development
- Effective in cool, warm, and hot weather.

COVERAGE RATE: 50,000 sq ft per bag per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

FERTI-MAXX BALANCE (18-18-18)

SKU: FM BALANCE - 25

Universal balanced blend for all types of landscapes and gardens.

- Boosted with Maxx-Products proprietary organic blend
- Balanced levels of Nitrogen, Phosphorous, & Potassium
- Effective in spring, warm and hot weather.

COVERAGE RATE: 50,000 sq ft per bag per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

FERTI-MAXX COOL (18-8-18)

SKU: FM COOL - 25

High nitrate blend for fast establishment of turf grasses in cool weather.

- Boosted with Maxx-Products proprietary organic blend
- for establishment of cool season grasses and winter greening
- Effective in cool, spring weather

COVERAGE RATE: 50,000 sq ft per bag per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

FERTI-MAXX PHOS FREE (25-0-25)

SKU: FM PHOS FREE - 25

Phosphorous Free Blend for where application is regulated.

- Boosted with Maxx-Products proprietary organic blend
- Ideal for turf grasses and all plant material where soil Phosphorous is abundant
- Effective in spring, warm and hot weather

COVERAGE RATE: 50,000 sq ft per bag per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

FERTI-MAXX SUGAR (3-1-2)

SKU: FM SUGAR - 2.5

Organic based and designed as low growth product for landscape health development and retention.

- High sugar content for quick microbial development
- Effective in cool, warm and hot weather

COVERAGE RATE: 25,000 sq ft per bag or bottle per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

FERTI-MAXX FISH (2-3-1)

SKU: FM FISH - 2.5

Derived from organic farm raised rainbow trout with a cold hydrolysate extraction process.

- Oils are emulsified into solution to allow injection
- High amino acid / protein content
- Effective in cool, warm and hot weather

COVERAGE RATE: 25,000 sq ft per bag or bottle per month.

FERTI-MAXX SUPPLEMENTS

Use these fertility supplements alone or to make fertilizers even better. If you wish your plants, greens, or grass looked healthier, or you just want them to stand out even more - the FERTI-MAXX supplements are going to be your best bet. With this, you can expect improved root systems and most importantly, see more beautiful plant color and size with consistent use.

- Improved root systems
- Improved plant growth and health.
- Enhanced plant color and size
- Consistent results with consistent use.
- Versatility to use alone or with fertilizers.

MAXX-BUILD (0-0-6)

SKU: MAXX BUILD

High carbon load product to improve soil structure.

- Complexes and chelates nutrients, reducing tie-up and fixation
- Builds soil to enhance nutrient and moisture holding capacity
- Increases nutrient availability of applied inputs and biological activity

COVERAGE RATE: 40,000 sq ft per bag or bottle per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

RHIZO-MAXX (0-0-6)

SKU: RHIZO MAXX

Designed to promote root health at planting or post establishment.

- Organic humic acid combined with kelp extract
- Builds the fine root hair structure of the plant increasing performance and reducing stress
- Control top growth by direct plants focus to the roots

COVERAGE RATE: 40,000 sq ft per bag or bottle per month.

[VISIT WEBSITE FOR INGREDIENT LIST](#)

ROOT-MAXX (0-0-0)

SKU: ROOT MAXX

Designed to maximize root development and improve nutrient uptake with organic Humic acid and Mychorrhizae.

- Improve nutrient and water retention
- Apply once or twice a year to restore beneficial fungi population
- Can be added to all FERTI-MAXX products and/or fertilizer.

COVERAGE RATE: 40,000 sq ft per bag or bottle per month.

VISIT WEBSITE FOR INGREDIENT LIST

IRON-MAXX (6-0-0)

SKU: IRON MAXX

Designed to provide dark green color without added growth.

- 5% Chelated non-staining iron supplement
- Effectively treats iron deficiency
- Can be added to all FERTI-MAXX products and/or fertilizer blends, use year round

COVERAGE RATE: 10,000 sq ft per bag or bottle per month.

VISIT WEBSITE FOR INGREDIENT LIST

COLOR-MAXX (6-0-0)

SKU: COLOR MAXX

Color enhancement from the inside out anytime of year.

- Promotes color, activates greening and stabilizes growth
- Broadens leaf structure and enhances nutrient uptake
- Can be added to all FERTI-MAXX products and/or fertilizer, use year round.

COVERAGE RATE: 10,000 sq ft per bag or bottle per month.

WATER-MAXX WATER TREATMENT

If you don't have the best water quality in your area or you just want to maximize results, our liquid water treatment products will give you a run for your money. They're designed to ramp up soil and water quality. This helps your water flow better, your soil become more absorbent, and makes your plants' roots easier to reach. With WATER-MAXX, you're helping your plants grow and bloom to their greatest potential!

- Boosts soil and water quality for plants.
- Enhances water flow, soil absorbency.
- Helps plants reach full potential.

HYDRO-MAXX

SKU: HYDRO MAXX

Wetting agent that can mix with all FERTI-MAXX products and/or fertilizer blends.

- Reduces water usage up to 30%
- Provides consistent moisture penetration and reduces water runoff
- Reduces nutrient and chemical requirements and maintains clean drip emitters
- Frees calcium allowing nutrients to penetrate the full soil profile

COVERAGE RATE: 160,000 sqft

PREMIUM FILL KIT

The EZ-Flo PFK Series – the ultimate solution for all your mixing and dosing needs! With the PFK-1, PFK-2, and PFK-3, you'll never have to guess which product to use or how much to add. Here are three key points that make the EZ-FLO PFK Series your go-to choice:

- Three products for different needs.
- Simple to use, no guessing required.
- High-quality ingredients for optimal growth.

Instructions:

Simply combine all of the ingredients into the pail, add water to the fill line to make the solution pourable, and fill your EZ-FLO system. There is no additional measuring or calculations required. Fill up any remaining room in the tank with water.

FERTI-MAXX ALL PURPOSE

SKU: PFK-1

This kit includes:

- 8 pounds of Ferti-Maxx Landscape Fertilizer – health and growth
- 8 ounces of Hydro-Maxx Wetting Agent – water and nutrient enhancement
- 8 ounces of Maxx-Build Supplement – soil health and nutrient retention

PARTS & ACCESSORIES

Dog ate your tubing? Ran over your tank? EZ-FLO offers a range of parts and accessories to help you maintain and repair your system as needed. Whether it's due to a mischievous pet or an accidental mishap, you can find replacement caps, tubes, connectors, and other essential components in one convenient location. This makes it easy to keep your system running smoothly and ensure that your plants receive the right amount of nutrients and water for optimal growth. With the ability to quickly and easily replace any missing or damaged parts, you can minimize downtime and ensure that your plants receive the care they need to thrive.

CONNECTORS

The EZ-FLO connection is a proprietary and patented component that is critical to the injection process. Proper selection and installation of the connection is essential for generating successful and repeatable injection results. The connection can be sized to match the diameter of the main line or water source and some EZ-FLO connections may also have a reduction in diameter or valve for feeding at lower flow rates. These diameter reductions or valves, when installed and used properly, will not affect the irrigation system's pressure or flow.

Detailed Connector instructions and videos are available on the company's website to help ensure the right product is selected for trouble-free use for years to come.

EZ-FLO - HOSE THREAD CONNECTORS

SKU: 3060 / 3060CG

For Garden Hose Thread (GHT) connection.

- Fits all 3/4" GHT connections
- PVC 3060 standard with 2005-HB & 2020-HB
- Brass 3060CG standard with 1010-HB
- Maybe used with any EZ-FLO model for hand spray applications

[VISIT WEBSITE FOR MORE DETAILS](#)

EZ-FLO - COUPLING BALL VALVE

SKU: CBV-100 to CBV-400

For standard main line connection

- Manufactured from SCH 40 PVC
- Solvent Weld PVC available for 3/4" to 4"
- Female threaded ends available for 3/4" to 1"
- Durable stainless steel barbed tubing connectors

[VISIT WEBSITE FOR MORE DETAILS](#)

EZ-FLO - SADDLE CONNECTIONS

SKU: SADDLES

Install on opposing sides of a valve*

- Installed through two - 1-1/4" drilled holes
- Venturi connects to saddle with a 3/4" or 1" FIPT
- Contact EZ-FLO for application specifics prior to installation

*Valve required for installation if not already present in the mainline
