C   US

Welcome to our newest edition of the HPC Outdoor Product Dealer Catalog. Team HPC Fire Inspired truly appreciates your business. We are so grateful for the trust you have placed in us. Our goal is to make your experience as easy and seamless as possible. We believe that customer service is not just a department, but rather it is the heart and soul of the entire company. Every team member plays an active role servicing and breathing life into the orders. HPC creates innovative and safe designs suited for our customers' lifestyles. Our designs are built to last; leaving a mark on the industry as a leader for interweaving quality, safety and technology in every appliance.

HPC stands by our designs ensuring that they will last the test of time.

We are excited to highlight the following new programs to support our mutually beneficial growth aspirations:

1. Over 400 CSA certified appliances guaranteed for top performance
2. Lifetime Warranty on burners
3. CAD details/3D models
4. Dealer Portal
5. New HPC One App- Page 8
6. SST Torpedo Burner yielding the biggest CSA Certified flame on the Market- Page 8
8. HPC Hybrid Forno de Pizza Oven-Page 6

On behalf of all the team at HPC, I would like to thank you all for your continued support. Cheers to a successful and prosperous year of making memorable moments!

All the Best!

Sean Steimle, Chief Executive Officer

DEALER INCENTIVE PROGRAM

LOCKED-IN INCENTIVE PRICING STRUCTURE FOR AN ENTIRE YEAR:
When your yearly sales orders meet one of our incentive levels your price structure is locked in for a full calendar year. For more information go to hpcfire.com/dealer.

ONLINE ORDER FULFILLMENT:
HPC offers a searchable online ordering site through the HPC Dealer Portal Store.hpcfire.com.

NEW PRODUCT DEVELOPMENT INPUT:
All dealers are encouraged to provide input on new product development.

HOW WE BEAT MOTHER NATURE
There's no two ways about it, outdoor gas fire pits face a double-barrel assault from wind and rain. HPC designs its products making sure our fire pits function effectively and safely in the field. For example:

• The Penta Burner sheds rain water in several ways. Each of the five lobes have "weep holes" that drain water. Also, the hub in the center of the burner is sealed to prevent water leaking into the burner.

• HPC's Electronic Ignition models all include a "drip leg" that diverts any water away from the electronics.

• In the face of wind, HPC's Electronic Ignition and Push Button/Flame Sensing models all are equipped with a thermocouple sensor that will shut off the gas supply if the flame is extinguished. In addition, HPC's metal "blow-out-box" acts as an added layer of protection shielding the pilot flame from the elements.

• HPC installs "spider guards" on all CSA-Certified fire pit inserts. The mesh guard deters spiders from nesting in the unit keeping your appliance free from any obstruction.

• HPC offers standard as well as custom covers protecting your design while not in use.

WEEP HOLE

HPC'S VISION STATEMENT
To provide safe, innovative outdoor living solutions that create memorable moments.

Inspired by safety. Innovated for your lifestyle.

HPC FIRE
INSPIRED™

ENGINEERED TO ORDER WITH CSA CERTIFCATION

HPC HAS WORKED CLOSELY WITH CSA. AS A RESULT, HPC NOW OFFERS CSA-CERTIFIED ENGINEERED TO ORDER DESIGNS.

ENGINEERED BURNER DESIGNS:

Outlining a few details with HPC's Engineer Lead Designer, Ben Wentzel is the first step to creating your unique design:

- *Location of installation*
- *The application*
- *Enclosure type*
- *Ventilation/drainage*
- *Type of gas the unit will be hooked to*
- *Style of Pan - Flat, Bowl etc.*
- *Standard Burner - Penta, linear etc.*
- *Custom Burner - H, E-Burner, Tree etc.*
- *Pan dimensions*
    - *-Round - ID and OD*
    - *-Rectangle - ID and OD*
    - *-Radius - ID and OD plus template*
    - *-Other - ID and OD*

Hammering out these essential details will assist our experts in creating the fire design of your dreams. Safety and innovation inform each and every fire design. In turn, this approach allows HPC to offer over 400 CSA Certified appliances, which is more than any other manufacturer in the industry.

For Engineered To Order designs to be CSA certified, they must not exceed a certain range of BTUs:

> **Match lit- 65,000 BTUs**
> **FPPK -250,000 BTUs**
> **EI-400,000 BTUs**

Anything above 400,000 BTUs will not be CSA certified as it is considered to be a high pressure unit. HPC can still build these custom designs and will conduct internal testing to ensure the unit will be safe and reliable.

You can find many of HPC's signature Engineered to order designs in commercial settings. Among many professional and collegiate facilities, HPC has created special designs for Comerica Park as well as the Philadelphia Phillies stadium which enhances the experience for all sports fans.

MOST POPULAR DESIGNS:

Per Ben Wentzel, "our most popular customized designs are HPC's long linear burners, radius, L shape or right angle, as well as U shape. These burners are used in different applications such as highlighting the edge of a pool, or enhancing an outdoor bar or kitchen. HPC is able to customize these designs by utilizing Stainless Steel tubing to create the curvatures and angles. In addition HPC has developed proper connections to ensure proper gas flow. Each burner hole is tooled versus punched out to ensure a quite, unobstructed flame. With HPC you can achieve a custom design that lights every time.

FORNO DE PIZZA

OUTDOOR DINING NEVER TASTED SO GOOD

HPC's Forno de Pizza hybrid oven was founded on the belief that some of our best experiences in life are spent with our friends and family. Cooking together with fire brings a powerful connection to the foods you're sharing. The Forno de Pizza oven honors timeless styling cues from ancient Greece while marrying it with modern conveniences. Designed to cook more than just pizza, it's an oven for the food enthusiast.

Forno Series (Portable)

The FORNO Series is a portable dual fuel oven that can be wheeled around easily. While it weighs around 450lbs, it can be easily taken apart and transported to various locations. The Forno de Pizza's classic design inspired the brand with its' black cart and intricate hand-crafted glass mosaic oven... This oven has an electronic ignition system that will facilitate oven starts and save on fuel when the burner is not in use. HPC offers the choice of six hues of mosaic glass to give the oven an elegant finish.
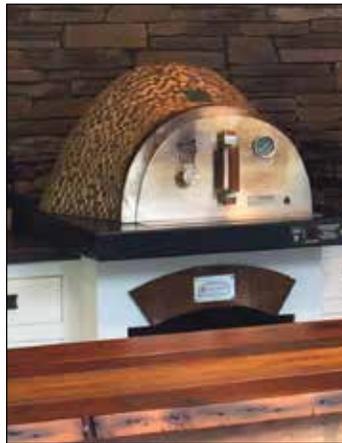

Includes Glass Tiled Oven, Stainless Steel Hearth, Vent, Powder Coat Black Steel Cart

Villa Series (Built In)

Hearth and oven installed in a built-in application, available in LP as well as Natural Gas. Installation is completed in 3 easy steps; requires a 35" deep countor and is paired with a custom stainless steel flange. The Villa is the lightest dual fuel built in oven on the market and has an electronic ignition system that facilitates oven starts as well as it saves on fuel when the burner is not in use.

Includes Glass Tiled Oven, Stainless Steel Hearth, Vent, Flange Mount

SST TORPEDO™ BURNERS

The commercial-grade SST Torpedo™ burner, available in Penta, Linear and H configurations; is our newly designed nozzle which creates the biggest flame on the market. The SST Torpedo Burners yeild an enhanced bonfire like aesthetic. This is a great addition to our product offerings, providing customers with an array of flame options.

SST TORPEDO BURNER *(WITH NOZZLES)*

STANDARD BURNER *(WITHOUT NOZZLES)*

THE SST TORPEDO™ IS THE LARGEST CSA CERTIFIED FLAME ON THE MARKET.

HPC FIRE ONE APP
ONE APP, THREE GREAT PRODUCTS!

HPC Fire Inspired's new augmented reality app lets you select options, scan your area, and place our products in your design. Just select, scan & see the design in real time.

Download it today on your Apple, Droid, or Google phone today by searching "HPC One App". Or go to hpcfire.com/one-app today.

① HPC AR

The Augmented Reality app allows you to see our finished products in real-time to make sure the aesthetic and look are exactly what you desire. HPC's AR App is a big hit with contractors and designers alike and truely enhances the customer experience.

② HITS

The HITS app is a building instruction, tools needed, clearance given, troubleshooting beast for anyone that has an HPC Fire feature. Simply choose the product you are working with and let the app do the rest. It starts with tools and clearances needed and goes into the step-by-step instructions of how to properly install any HPC Fire appliance.

③ HPC FIRE

The HPC FIRE app allows you to control the electronic ignition-High-Low models. The HPC FIRE app does a lot more than just light your fire, it allows you to change the flame height from high to low and achieve the ambiance you desire. As added safety precautions the app offers password protected parental safety controls.

⚠ **WARNING: California PROP 65:** This product can expose you to Lead & Chromium, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Inspired by safety. Innovated for your lifestyle.

HPC ® **FIRE** INSPIRED™

① MATCH LIT (MLFPK SERIES)

This is our simplest certified fire pit insert- easy to operate and requires the least amount of maintenance.

How It Works

Start Up: Light the long-stem lighter next to the perimeter of the burner then slowly open the key to valve. Leave key in the valve during use.

Operation: Flame height may be adjusted by turning the key to the valve: counterclockwise increases more flame height, clockwise lowers flame.

Shut Down: To turn OFF the fire pit, simply turn the key to the valve clockwise to the OFF position. Lastly, remove key.

Features

- Fully Assembled and ready to install.
- Flex Line configuration provides versatile and simple installation.
- Valve mounting bracket included- for safe mounting of control have.

Flex Line - Whistle Free

Mounting Bracket

- Flame height is adjustable using key valve.
- Available in Natural Gas or Liquid Propane.
- CSA Certified in US & Canada to ANSI Z21.97-2017 / CSA 2.41-2014 requirements.
- Optional Install & Controls: Paver Block Bracket, Key Extension Kit, Long Keys and Spark Ignition Kit.

② PUSH BUTTON / FLAME SENSE CONTROL (FPPK SERIES)

This is our mid-range fire pit insert utilizing safety pilot flame control. Simply push the ignition button and the valve control knob to start. Flame adjustment is done with the knob. The FPPK gives our customers flame sensing technology and is battery operated, negating the need for a power

How It Works

Start Up: Simaltaneously press the valve control knob to start pilot gas flow while pressing the ignition button for spark. Once ignited, release the control knob (about 20 seconds). Lastly, turn the control knob counter clockwise lighting the main burner.

Operation: Flame height may be adjusted by turning valve control knob- counterclockwise provides more flame, clockwise lowers flame. If flame loss does occur, the system will automatically turn off all gas flow.

Shut Down: To turn OFF the fire pit simply turn valve control knob clockwise- slightly depress knob to reach OFF position.

Features

- Fully Assembled and ready to install. Control components are protected within the valve box.
- Flex Line configuration provides versatile and simple installation.
- Start ignition with push button and valve control knob.
- Flame sensing- system will turn off gas if flame is lost.
- Flame height is adjustable using valve control knob.
- Battery Operated System- is perfect solution for installs with no power.
- Natural Gas or Liquid Propane.
- CSA Certified in US & Canada to ANSI Z21.97-2017 / CSA 2.41-2014 requirements.

③ REMOTE ELECTRONIC IGNITION CONTROL (EI SERIES)

HPC's top of the line system comes fully assembled and is ready to be installed. The EI Series is available in High/Low as well as On/Off Models. Once installed, the EI Series can be operated with a wall switch or a hand held remote.

Pilot Flame

Thermocouple Sensor

Hot Surface Igniter

Smart device App available on Hi/Lo Models only
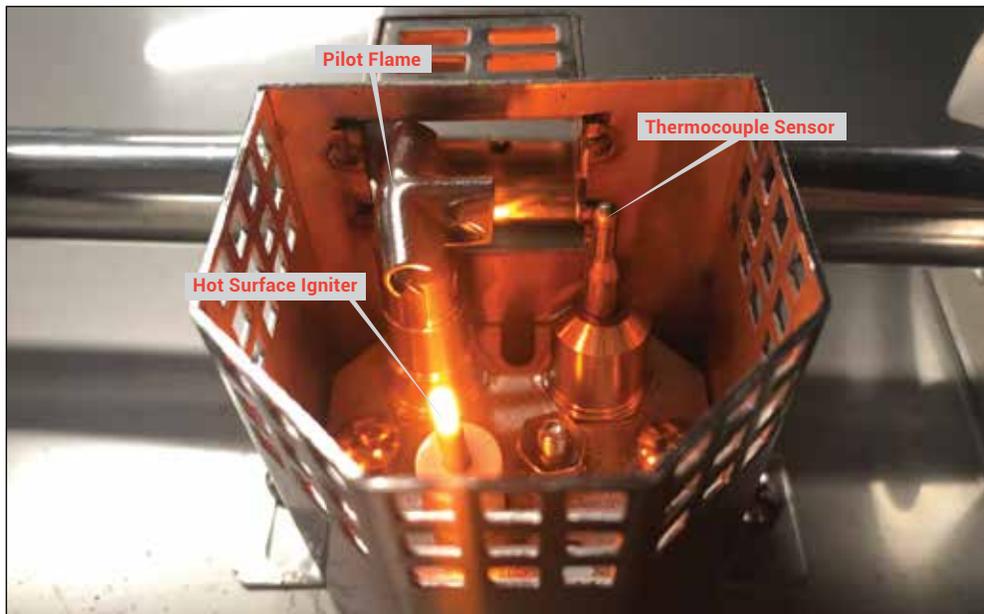

How It Works

Start Up: This is done by use of a wall switch or remote control. When the ON command is received, the system completes initial safety checks then starts flow of pilot gas. After 5 seconds the hot surface igniter glows igniting the pilot flame. When the system confirms the pilot flame is present, the main burner will be ignited by the pilot flame.

Operation: While enjoying the ambiance of your fire pit, the system is at work monitoring flame status, internal temperatures / voltages and other safety parameters. If flame loss does occur, the system will turn off all gas flow, and then restart by automatically commencing the start sequence.

> **On/Off Models:** Includes the convenience and safety features- optional remote control available.

> **Bluetooth High / Low Flame Control Models:** This option includes a smart remote as well as a smartapp enabling 2-way communication with the fire pit. Remote allows flame height control while receiving information from fire pit to advise user of fire pit status (flashing LED).

Shut Down: To turn OFF the fire pit simply use wall switch, remote control or whole house system.

Features

• Fully Assembled- ready to install. Control components are protected within valve box.
• Start via wall switch or remote control; Auto re-light if flame is lost.
• Ignition is complete using a robust and reliable Hot Surface igniter.
• On/Off models: Use with optional wall switch, Remote Control or your whole house system
• High/Low Flame Control Models: Adjust high setting to low setting- ~45% turndown (Remote Control included). Not for use with your whole house system.
• 120vac: Standard outdoor grounded power cord- simply plug into GFCI outlet.
• 24vac Option: Typically used with lower voltage requirements.
• Natural Gas or Liquid Propane.
• Internal temperature monitoring with overheat auto shutoff.
• CSA Certified in US & Canada to ANSI Z21.97-2017 / CSA 2.41-2014 requirements. (This new EI system already meets upcoming 2020 ANSI requirements).
• Optional Controls: On/Off Remote, Timers, Power Supplies and an Emergency Shutoff. (Pg. 59)

On/Off Model- Remote (Optional)

High / Low Model- Remote (Standard)

Thermocouple Lead crimped by design for ease of install.

⚠ **WARNING: California PROP 65:** This product can expose you to Lead & Chromium, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

INTERLINK INSERTS

EI Series

24VAC MODELS REQUIRE HPC/SEBCO 24vac, 100W Power Supply for inserts ONLY pg. 55

SST TORPEDO BURNER
ONLY AVAILABLE IN TORPEDO

See page 8 for details

Benefits of a Linear Insert:
Partial sidewall for media retention; installed in a recess mount application. Can be joined end to end to acheive a custom look.

Features:
Made of #304, 18 gauge Stainless Steel

Sidewalls:
*Adds rigidity, stronger than flat pans,
Removable center section on larger models
Raised hub T-Burner for water retention prevention
Secure gas fittings for strength
Weep holes for drainage
Lifetime Warranty on burners

SIK36 - MANUAL SPARK IGNITION *for match lit fire pits pg. 48*

MLFPK Series

FPPK Series

COMPLETE FIRE PIT PACKAGES

These units are unfinished, allowing customers to select from materials such as: stone, veneer, or stucco to match the surroundings. RTF units are available in round, octagon, square, and linear shapes. Housings take the guess work out of enclosure construction. The RTF are 18" tall and are constructed from sturdy 22 gauge galvanized steel material, have a welded frame, and a 1/2" hardie board shell weighing 150 lbs.

Enclosures ship from our North Carolina warehouse on a pallet; Fire Pits ship from Ohio warehouse.

HPC offers complete fire pit packages that include unfinished enclosures fitted with a certified remote electronic ignition (EI), push button/flame sensing (FPPK) or match lit (MLFPK) fire pit insert.

Now, certain models are available sized to fit a small LP tank inside, with a door included. See page 32.

READY TO FINISH PACKAGES

ROUND ENCLOSURE - PENTA BURNER - SPECIFICATIONS

H2Onfire

Electronic Ignition fire intergrated with water, turn-key appliance operating at a gas pressure less than 1/4 psi, allowing for residential installations. It is also the first "fire on water" system to be certified in North America to the Z21.97 standard by the CSA Group - passing the stringent wind, rain, and combustion test.

The fire ring is totally submerged underwater using our patent pending burner design and back flow prevention to protect the controls. HPC's H2OnFire produces a very appealing flame utilizing only 65,000 Btu. This is NOT a match lit system- it is remote controlled with auto relight. Our ignition and flame sensing network is located in the center tower monitoring flame conditions at all times. **Ships in crate on pallet.**

FIRE LOGS

CONCRETE OUTDOOR LOGS

Second only to the flame itself, nothing says outdoor fire pit like a beautiful set of fire logs. HPC is introducing a new line of fire logs this year. This new line-up features logs that are intricately detailed and

extremely durable. To give our logs a true realistic appearance, they are actually cast from real pieces of wood. Nearly impossible to tell from the real thing! Three distinctive styles, in 9-piece or 16-piece sets.

ARIZONA WEATHERED OAK

A classic look. The Arizona Weathered Oak fire log set features deeply contoured bark, all intricately hand-painted. Beautiful from every angle.

SPECIFICATIONS

Style	Model	Piece	Size
Arizona	FPL18/24AWO9	9	12"-18"
Weathered Oak	FPL30/36AWO16	16	14"-18"

ASPEN BIRCH

Logs with a contemporary flair, these Aspen Birch fire logs fit very well with rectangular and linear fire pits.

SPECIFICATIONS

Style	Model	Piece	Size
Aspen	FPL18/24AB9	9	11"-18"
Birch	FPL30/36AB16	16	13-18"

WESTERN DRIFTWOOD

A new design, the Western Driftwood fire log set really looks like its pieces were picked up off the beach. Beautiful whether the fire is burning or not.

SPECIFICATIONS

Style	Model	Piece	Size
Western	FPL18/24WD9	9	10"-18"
Driftwood	FPL30/36WD16	16	10"-21"

Inspired by safety. Innovated for your lifestyle.

LAVA & CERAMIC ROCK

LAVA ROCK

ROLLED LAVA STONE

Red

Black

Lava Rock is proven to increase combustion efficiency while maintaining a classy look for any fire pit. The size of each piece of rock varies from 1" to 2". Lava rock is sold in 1/2 cubic foot increments. Serves as an excellent base for our specially designed outdoor logs.

Model	Size
657	1"-2" Size

Unique finish lava stone rolled smooth. Available in 1/2 cubic foot bags.

Color	Model	Size
Black	857S	1"-2" Size
	857M	2.5"-4.5" Size

CERAMIC RIVER ROCK SERIES

Looking for something other than lava rock or glass? HPC's River Rock Series are made from lightweight ceramic fiber and are gel casted. The durable design allows the river rock to withstand outdoor elements. Each set comes with an 84 piece assortment of large and small stones (large pieces are 4 1/2", small pieces are 2 1/2"). One set is 1/2 cubic foot (15 lbs). Available in two styles — black or multi color (light and dark brown, gray, and black)

GLASS WIND GUARDS

HPC provides a high quality glass wind guards specially designed to complement as well as provide additional safety for HPC fire pit inserts: round, square, rectangle and linear. Made from durable tempered glass to ensure a long lasting, heat resistant product. Wind guards reduce flame disturbance and prevent loose items from getting too close to the flames.

Features:
Tempered Glass - Heavy duty 3/16" clear glass that is tempered to improve durability and allows it to withstand high temperatures. Depending on wind guard size- 4 or 6 sections complete the desired shape.
Brackets- Polished aluminum brackets and plastic support feet provided.

STAINLESS STEEL COVERS

These stainless steel covers are constructed of #304, 20 gauge material. Great for covering fire pits without outdoor logs. Linear trough covers are designed specifically for our trough series, be it match lit, manual ignition, or remote electronic ignition models. These are lightweight and have handles for ease of use.

LINEAR

Stainless	Size	Model	Height	Handle	Weight
Brushed	28" x 9.5"	TPHC-24SS	1"	1	11 lbs

	58" x 20"	HPHC-54X16SS	1"	2	28 lbs

Inspired by safety. Innovated for your lifestyle.

VINYL COVERS

Made of durable vinyl, they protect fire pits and enclosures from debris and elements. The round covers have elastic and the rectangle covers have a pull string at the bottom for ease of use.
NOTE: Skirt Length 10"

ACCESSORIES

DECK INSTALLATION KIT (EI, FPPK & MLFPK)

This kit is needed when installing a gas fire pit on a wood or composite deck. It provides flame and excess heat protection around input flex line connection(s). The basalt insulation is for inside the fire pit enclosure or bowl and should be placed over a layer of paver blocks (1" min. thickness). Incoming gas stub must protrude through the deck, paver blocks and insulation for fire pit flex line connection. Kit includes basalt insulation and instructions- basalt insulation measures 39.3" x 39.3" (1 sq. meter)- larger fire pits will require more pieces. The insulation is easily cut with utility knife.

FPI-DECK20SQ - For fire bowls- includes basalt insulation- 19.6" x 19.6"

FPI-DECK39SQ - For fire pits- includes basalt insulation- 39.3" x 39.3" (1 sq. meter).

Deck
Basalt Fabric
Paver Stones
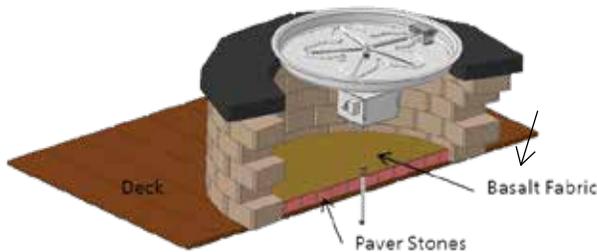

MATCH LIT MODELS (MLFPK) PAVER BLOCK BRACKET

Valve/Flange Key not included

KVMB-PB

Designed for the Dante Valve, this bracket allows flexibility and installation ease of the MLFPK decorative key valve. The face plate is adjustable from 8" to 12" width accommodating most pavers. The valve is securely mounted to bracket using decorative flange. (8-12"W x 3.875H x 5"D)
IMPORTANT: For use only with DANTE Valve #327-CH (Pg. 54)

REPLACEMENT REMOTE SMALL TANK KIT - LP (FPPK & MLFPK)

STLPK

This kit is for use with CSA certified FPPK and MLFPK fire pit models less than 90k Btu- see fire pit insert section for approved models. The kits includes a 90-degree regulator with 48" hose, 24" Flex Line, small tank L-Bracket and fittings for FPPK or MLFPK connection.
For use with CSA Certified FPPK & MLFPK fire pit inserts only

MATCH LIT SPARK IGNITER KIT

SIK36

Can't find matches or a lighter for a match-lit fire pit? No problem! HPC now offers a "Match-Lit Plus" Spark Ignitor Kit, which is easily installed and makes any match-lit fire pit much more convenient to light. Included in the kit is the spark ignitor itself, plus the battery-activated push-button mounting plate (battery included).

Inspired by safety. Innovated for your lifestyle.

HPC ® **FIRE INSPIRED**™

HARDSCAPE BLOCK KIT

Available when installing a fire pit in ready-made hardscape blocks. The kit includes all the things you'll need to complete the installation.

Kit Includes
- Fire Pit Insert
- Flex Form Collars (1 or 2 Boxes) *(44x6.2")*
- Vents - 2 *(9x4")*
- SSC24 Flex Line *(24")*
- Lava Rock

FRSB-11 BRACKET
This unique bracket is universal to all HPC burners making them more rigid than competitive models.

REGULATORS

770-150
150k Btu pressure regulator
Natural Gas : 5 psi input
Liquid Propane : 2 psi input
1/2"x1/2", 4"-12" water column

770-300
300k Btu pressure regulator
Natural Gas : 5 psi input
Liquid Propane : 2 psi input
1"x1", 4"-12" water column

658
100k Btu LP pressure regulator
3/8" x 3/8", 4"-12" water column

770-13A15
MAXITROL Vent protector with a 1/8" inlet made for 770-150

770-13A15-5
MAXITROL Vent protector with a 3/8" inlet made for 770-300

GRILL REPAIR REGULATOR & HOSE - LP

658/90-18
18" Rubber Hose
90 degree Regulator
100k Btu, 3/8 Fitting

658/90-36
36" Rubber Hose
90 degree Regulator
100k Btu, 3/8 Fitting

658SS/90-36
36" Braided SS Hose
90 degree Regulator
100k Btu, 3/8 Fitting

PUSH BUTTON IGNITION KITS

This hard pipe unassembled kit include stainless steel pan and burner, push button ignition switch and igniter, chrome decorative key valve, fittings and flex line. **Natural Gas Only** *(Not certified).*

FLAME CONTROL SYSTEMS
DECORATIVE KEY VALVES

DANTE VALVE

327-CH

Key Valve Part Numbers: Key Valves are numbered as either Angled or Straight, and based off of color. For example, MAFB is described as Manual Angled Flat Black. MSFB would be Manual Straight Flat Black.

STANDARD CAPACITY VALVES (1/2")
1/4 Turn angle or straight manual ball valve with flange and key. 1/2" inlet and outlet. For floor or wall mounting.

Recommended for gas shut off of 150k Btu or less

HIGH CAPACITY VALVES (3/4")
1/4 Turn angle or straight manual ball valve with flange and key. 3/4" inlet and outlet. For floor or wall mounting.

Recommended for gas shut off of 400k Btu or less

CHROME FLANGE/ KEY

Valve	Inlet / Outlet	Models
Angle	1/2"	MACB
	3/4"	MACB-HC
Straight	1/2"	MSCB

MANUAL SPARK, FLAME SENSING (FPPK) CONTROL SYSTEMS

This system utilizes a standing pilot with thermocouple. Has flame sensing technology to safely manage the flame and gas flow. Offers manual flame height adjustment, manual switch spark igniter (battery operated), and a safety pilot valve mounted in a stainless steel box.

Size: 7.5"x6.5"x2.6"

Max BTU	Gas Type	Models
140k	Natural Gas	FPPK-NG
	Liquid Propane	FPPK-LP

PILOT ASSEMBLY AND BLOWOUT BOX

See chart for recommended burner size.
Includes: Assembled stainless steel control box, 36" pilot assembly with spark igniter, and blowout box, flex line, hard pipe, and fittings.

Recommended FPPK Burner Size

Burner Type	Size w/ FPPK-HC	Size w/ FPPK-MC
Penta Series	18" ~ 30"	12" ~ 24"
Round Burner	18" ~ 30"	12" ~ 18"
H-Burner Series	30"X8" ~ 48"X10"	24"X6" ~ 30"X8"
Square Burner	18" ~ 24"	12" ~ 18"
T-Burner	50" ~ 72"	36" ~ 48"

NOTE: Burner too small could result in unsafe LP back pressure. Burner too large could result in small, undesirable flame height.

COMMERCIAL AUTOMATIC SHUTOFF TIMERS - 120VAC

Available Now!!!

694   **695**
2 Hour Timer   *12 Hour Timer*
Stainless Steel Rotary Timer (SPDT, 20A) 1/2" deep. Double gang box recommended. For use with NEMA 3R box for mounting.

694 NEMA   **695 NEMA**
2 Hour Timer   *12 Hour Timer*
NEMA 3R Box with 694 or 695 timer. Includes timer mounted into the NEMA 3R box for your convenience.

696
2, 4, 8 and 12 Hour Timer
Four preset switch for indoors. Can be set at 2, 4, 8, and 12 hours (SPDT, 20A). Fits single Gangbox

GT-ESTOP-2.5
2.5 Hour Timer
A combination of an "Emergency Stop" control switch, plus a Gas-turn-off timer that is adjustable up to 2-1/2 hours.
NG - 290,000 BTU/hr Max Capacity
LP - 430,000 BTU/hr Max Capacity

POWER SUPPLIES - FOR 24VAC & 12VAC MODELS

Input Primary - 120VAC, 60/50Hz, 1A max
Output Secondary - 24VAC & 12VAC, 60/50Hz, 4A

24VAC Model	Style	For use with
311-PS1	1 Output	24 VAC Inserts
311-PS3	3 Outputs	24 VAC Inserts
311-PS5	5 Outputs	24 VAC Inserts

12VAC Model	Style	For use with

POP DISPLAYS

HPC DISPLAY STANDS

FOR DISPLAY ONLY! NOT FOR OUTDOOR INSTALLATION

Need to display your fire pit inserts? Our steel display stands give full access to the insert for your customer to look at every detail!
The fire pit insert displays are available as follows:

1) Push Button / Spark Ignition (FPPK) Display Kit- includes applicable FPPK fire pit insert, match lit insert control valve (327-CH) and the display stand.
2) Electronic Ignition (EI) Display Kit- includes applicable EI fire pit insert and the display stand.
3) Stand Only

SAFETY PILOT KITS

Let us assemble the kit tailored for your business needs— you choose valve / pilot assembly, fittings, heat shield, etc. We assemble & package with your assigned part #- all in one box!

The safety pilot valve provides a safe shutdown in the event of an interruption in the gas supply or flameout. Using a standing pilot provides a convenient means of lighting the main burner. The flame height is manually controlled using the valve adjusting knob The valve also controls the main burner. HPC offers numerous kit configurations providing installation flexibility and convenient use.

Benefits: Flame Sensed, Manual flame height control, Simple main burner ignition.

SIDE INLET VALVE KITS - 70 SERIES
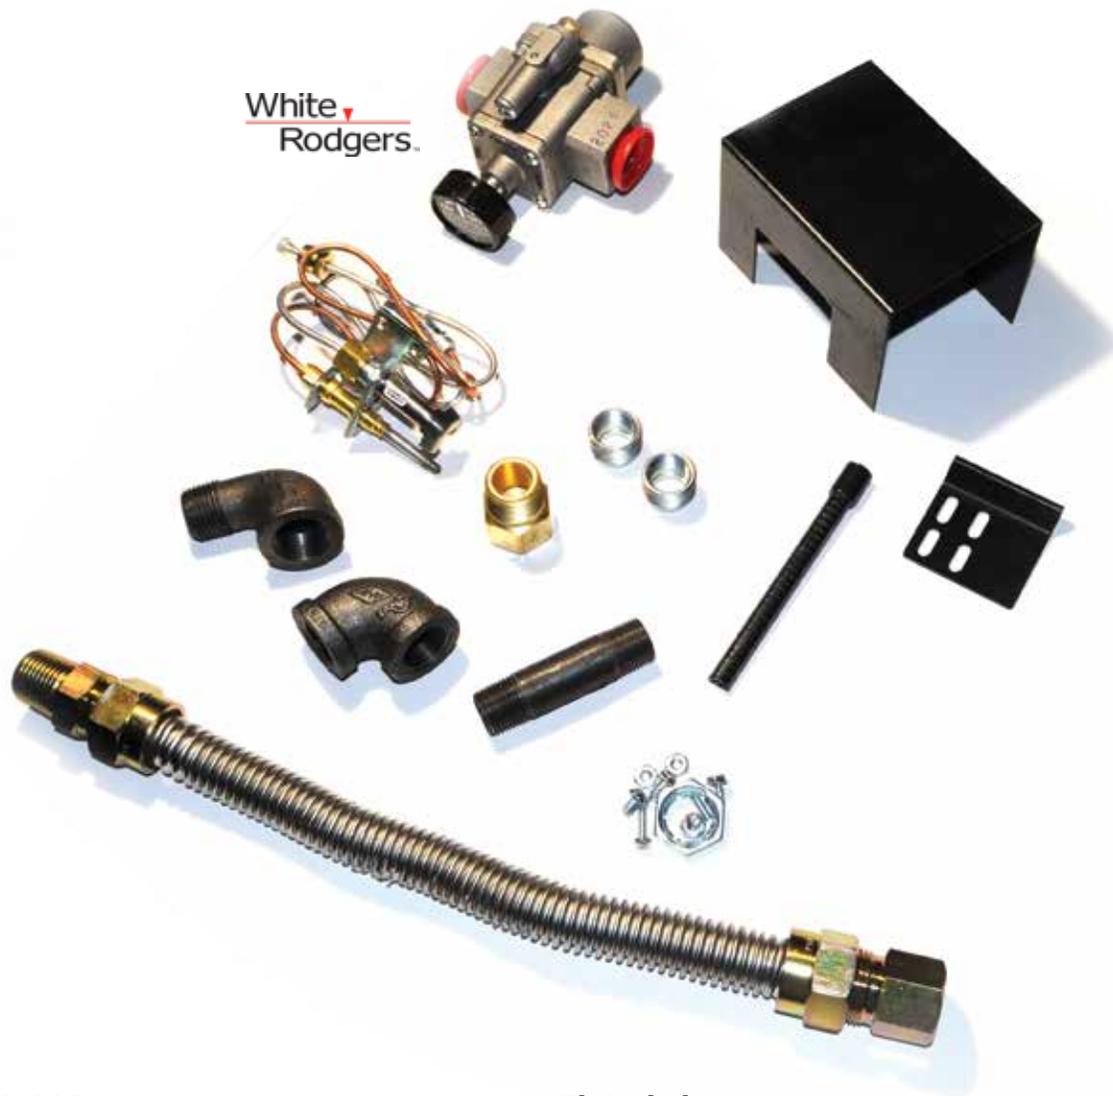

70PKN-HC *- High Capacity! 142K Btu*

Safety pilot kit for natural gas applications with burner having 1/2" male threads on burner tube. Can easily mount straight out from burner pan or has fittings to allow valve to move forward and up from the floor away from the burner pan. Uses White Rodgers High Capacity 142k Btu, 250° valve. For LP applications use 70LPK-HC conversion kit (Pg. 69)

Kit Includes:

- *White-Rodgers High Capacity Valve (#100-HC): Side Gas Inlet, 142k Btu, 250° Rating*
- *18" Pilot Assembly with mounting bracket.*
- *Assorted fittings for valve / burner connection.*
- *Heat Shield for valve.*
- *12" Flex Line for valve input.*
- *Black control knob with 4" stem extension.*

Inspired by safety. Innovated for your lifestyle.

72PKNQM *- 3" Swivel Flare Connection*

"Quick Mount" swivel flare connector version for easy connection to burner. Uses Copreci 300°, 90K Btu side inlet valve. For natural gas applications with gas log sets having either 3/8" female thread, 3/8" male thread, or 1/2" male thread on end of the burner tube, 90k Btu. For LP applications use 70LPK-QM conversion kit (Page 69)

Kit Includes:

* *Copreci Safety Pilot Valve (#110): Side Gas Inlet, 90k Btu, 300° Rating.*
* *18" Pilot Assembly with mounting bracket.*
* *3" Swivel Flare Connector for easy valve / burner connection.*
* *Heat Shield for valve.*
* *Black control knob with 4" stem extension.*
* *Assorted fittings for various burner threads.*

White Rodgers

72PKN *- Hard Pipe Connection*

Hard pipe connection to burner with use of fittings. Uses Copreci 300°, 90k Btu side inlet valve. For natural gas applications with burners having 3/8" female, 3/8" male or ½" male thread. For LP applications use the 70LPK conversion kit (Pg. 69).

Kit Includes:

* *Copreci Safety Pilot Valve (#110): Side Gas Inlet, 90k Btu, 300° Rating.*
* *18" Pilot Assembly with mounting bracket.*
* *Assorted fittings for valve / burner connection.*
* *Heat Shield for valve.*
* *Black control knob with 4" stem extension.*
* *Assorted fittings for various burner threads.*

COPRECI

65

SAFETY PILOT KITS (CONTINUED)

Let us assemble the kit tailored for your business needs– you choose valve / pilot assembly, fittings, heat shield, etc. We assemble & package with your assigned part #- all in one box!

172UPK - *Hard Pipe Connection*

Combines 72PKN & 70LPK for either LP or natural gas installations.

Kit Includes:

- 72PKN components
- Vermiculite
- Air Mixer / Orifice
- Pilot Assembly LP Orifice.

COPRECI

REAR INLET VALVE KITS - 80 SERIES

TOP SELLER

COPRECI

80PKN - *Hard Pipe Connection*

Hard pipe connection to burner with use of fittings. Uses Copreci 300°, 90k Btu rear inlet valve. For natural gas applications with burners having 3/8" female, 3/8" male or ½" male thread. For LP applications use the 70LPK conversion kit (Pg. 69).

Kit Includes:

- Copreci Safety Pilot Valve (#109-C): Rear Gas Inlet, 90k Btu, 300° Rating.
- 18" Pilot Assembly with mounting bracket.
- Assorted fittings for valve / burner connection.
- Heat Shield for valve.
- Black control knob with 4" stem extension.
- Assorted fittings for various burner threads.

Inspired by safety. Innovated for your lifestyle.

80PKNQM - *3" Swivel Flare Connection*

"Quick Mount" swivel flare connector system. Uses 300° rear inlet Copreci Valve. All fittings for mounting to all "standard" type burner pans. Designed to fit burners having 3/8" female, 3/8" male or 1/2" male threads on burner tube, 90k Btu. For LP applications use 70LPK-QM conversion kit (Page 69).

Kit Includes:
- Copreci Safety Pilot Valve (#109-C): Rear Gas Inlet, 90k Btu, 300° Rating.
- 18" Pilot Assembly with mounting bracket.
- 3" Swivel Flare Connector for easy valve / burner connection.
- Heat Shield for valve.
- Black control knob with 4" stem extension.
- Assorted fittings for various burner threads.

81PKNQM - *1.5" Swivel Flare Connection*

"Quick Mount" swivel Flare connector system. Uses Copreci 300° rear inlet valve. Uses 1½" swivel connector to give a more compact fit, and easier assembly. Designed to fit burner pans with 1/2" male threads on the end of the burner tube, 90k Btu. For LP applications use 70LPK-QM conversion kit (Page 69).

Kit Includes:
- Copreci Safety Pilot Valve (#109-C): Rear Gas Inlet, 90k Btu, 300° Rating.
- 18" Pilot Assembly with mounting bracket.
- 1.5" Swivel Flare Connector for easy valve / burner connection.
- Heat Shield for valve.
- Black control knob with 4" stem extension.
- Assorted fittings for various burner threads.

Need help? Use our fire pit selector at **hpcfire.com**

67

SAFETY PILOT KITS (CONTINUED)

Let us assemble the kit tailored for your business needs— you choose valve / pilot assembly, fittings, heat shield, etc. We assemble & package with your assigned part #- all in one box!
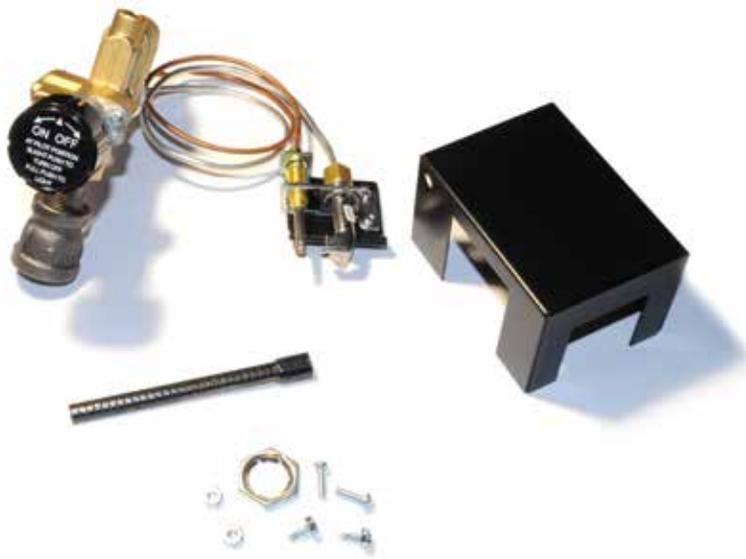

182UPK - *Universal Natural Gas and Liquid Propane*

Contains all components of 80PKN and 70LPK. This kit can be used for either Natural or LP installations.

Kit Includes:

- *80PKN components* (Page 66)
- *Vermiculite*
- *Air Mixer / Orifice*
- *Pilot Assembly LP Orifice.*

SPK-85 - *Fully Assembled!*

Comes to you fully assembled. Uses Copreci 300° rear inlet valve. Designed to fit only burner pans with 1/2" male threads on the end of the burner tube. For natural gas. 90k Btu. For LP applications use 70LPK conversion kit (Page 69).

Kit Includes:

- *Copreci Safety Pilot Valve (#109-C): Rear Gas Inlet, 90k Btu, 300° Rating.*
- *18" Pilot Assembly with mounting bracket.*
- *Assorted fittings for valve / burner connection.*
- *Heat Shield for valve.*
- *Black control knob with 4" stem extension.*
- *Assorted fittings for various burner threads.*

COPRECI

LOW PROFILE VALVE KITS - 90 SERIES

91PKN - *Hard Pipe Connection*

Ultra low profile safety pilot kit that employs a Copreci rear inlet 90k Btu, 300° valve. Fits all standard type burner pans. Designed to fit burners with 3/8" female threads, 3/8" male threads and 1/2" male threads. For LP applications use 70LPK conversion kit (Page 69).

Kit Includes:

- *Copreci Safety Pilot Valve (#108-C): Low Profile, Rear Gas Inlet, 90k Btu, 300° Rating.*
- *18" Pilot Assembly with mounting bracket.*
- *Assorted fittings for valve / burner connection.*
- *Low Profile Heat Shield for valve.*
- *Black control knob with 4" stem extension.*
- *Assorted fittings for various burner threads.*

Inspired by safety. Innovated for your lifestyle.

LOW PROFILE VALVE KITS - 90 SERIES

91PKNQM - *1.5" Swivel Flare Connection*

Quick Mount System uses 300° low profile, rear inlet Copreci valve. This kit is designed to fit all standard type burner pans. Designed to fit burners with 3/8" female threads, 3/8" male threads and 1/2" male threads. 90k Btu. For LP applications use 70LPK conversion kit (Page 69).

Kit Includes:

- *Copreci Safety Pilot Valve (#108-C): Low Profile, Rear Gas Inlet, 90k Btu, 300° Rating.*
- *18" Pilot Assembly with mounting bracket.*
- *1.5" Swivel Flare Connector for easy valve / burner connection.*
- *Low Profile Heat Shield for valve.*
- *Black control knob with 4" stem extension.*
- *Assorted fittings for various burner threads.*

CFPVC - *Ceramic Fiber Pilot Valve Cover*

Heat shield/valve cover made of light weight ceramic fiber and hand painted. Designed for safety pilot valves.

LP CONVERSION KITS

70LPK

For use with 72PKN, 80PKN, 83PKN, SPK-85. Includes: Vermiculite, Air Mixer / Orifice, 2 LP Pilot Orifices

70LPK-HC

For use with 70PKN-HC. Includes: Vermiculite, 1/2" Air Mixer / Orifice, 2 LP Pilot Orifices

70LPK-QM

For use with 72PKNQM, 80PKNQM, 81PKNQM, and 91PKNQM. Includes: Vermiculite, Air Mixer / Orifice, 2 LP Pilot Orifices

SAFETY PILOT KITS *(CONTINUED)*

THERMOCOUPLES

120

Pilot assembly bracket- this bracket allows for mounting the pilot assembly to the burner pan by simply sliding bracket onto edge of pan. Works for most safety pilot and millivolt pilot assemblies. Measures 1.75" x 1.75".

Model #	Length	Description
106M	18"	METRIC; DV thermocouple; quick drop.
106R	18"	Robertshaw- fits 102 & 102-P assembly
106W	18"	White-Rodgers- fits 102-W
106U	18"	Universal Thermocouple For use with Both Metric and Standard
117	36"	Robertshaw– 36" fits 102 & 102-P assembly
112	48"	Robertshaw– 48" fits 102 & 102-P assembly
116	72"	Robertshaw– 72" fits 102 & 102-P assembly
120	–	Pilot Burner Mounting Bracket

THERMOCOUPLE THREAD ADAPTERS

These adaptors allow for valve / thermocouples of different type threads to be used -- allows for metric to be used with standard thread.

434
Metric M9 to standard 11/32" threads.

436
Metric M9 to Metric M8 threads.

CORRUGATED PILOT TUBING

Dormont corrugated, stainless steel pilot tube.1/4" O.D.

MILLIVOLT KITS

Let us assemble the kit tailored for your needs — you choose valve / pilot assembly, fittings, heat shield, etc. We assemble and package with your assigned part number - All in one box! -For use with Remote Control, Wall Switch, or Timer

The millivolt valve provides a safe shutdown, in the event of an interruption in the gas supply or flameout. Offering the convenience of wall switch or remote control in conjunction with a standing pilot provides a safe means of lighting the main burner. On some of HPC's models the features can be controlled remotely allowing customers to adjust the flame height, as well as start up and shutdown the main burner. HPC offers numerous kit configurations providing install flexibility and convenience.

Benefits: Remote Control or Wall Switch capability, flame height control models, Manual or Thermostatic response, Flame Sensed, Simple main burner ignition.

About Our Kits

- Most kits may be installed on right or left side of fireplace.
- All Kits may be installed standing up or laying down.
- Our kits provide all the fittings that should be needed for almost all installations on any of the three "standard" types of gas log sets.
- One or two stainless steel flex lines in all kits.

MVK-N, MVK-P - *Flex Line Connection*

Millivolt valve kit with flex line connection to main burner. Uses Dexen gas valve, 85k Btu that may be controlled with a wall switch, remote control or timer.

Kit Includes:

- *Dexen 6003 Series Valve (#200-D or #201-D for LP), 85k Btu.*
- *18" Pilot Assembly with mounting bracket.*
- *10" Black Stainless Steel Flex Lines (2).*
- *Insulated Heat Shield with On/Off switch on front.*
- *225° High Limit Switch on valve.*
- *Assorted fittings for various burner threads.*
- *MVK-P for LP Gas- also includes Air Mixer / Orifice, Vermiculite and LP pilot orifice.*
- *OPTIONAL Remote Control: Compatible with RCK-I, RCK-K, RCK-B and RCK-D- see our Remote Controls on Pg. 84*

DEXEN INDUSTRIES, INC.

MVK-NQM, MVK-PQM *- 3" Swivel Flare Connection*

Millivolt valve kit with 3" Swivel Flare connection to main burner. Uses Dexen gas valve, 85k Btu that may be controlled with a wall switch, remote control or timer.

Kit Includes:

*   *Dexen 6003 Series Valve (#200-D or #201-D for LP), 85k Btu.*
*   *18" Pilot Assembly with mounting bracket.*
*   *3" Swivel Connector for easy valve / burner connection.*
*   *10" Black Stainless Steel Flex Line.*
*   *Insulated Heat Shield with On/Off switch on front.*
*   *225° High Limit Switch on valve.*
*   *Assorted fittings for various burner threads.*
*   *MVK-PQM for LP Gas- also includes Air Mixer / Orifice, Vermiculite and LP pilot orifice.*
*   *OPTIONAL Remote Control: Compatible with RCK-I, RCK-K, RCK-B and RCK-D- see our Remote Controls on Pg. 84*

MVK-HC *- High Capacity! 230k Btu*

High Capacity Millivolt valve kit (Natural Gas) with flex line connection to ½" main burner. Uses White-Rodgers gas valve, 230k Btu that may be controlled with a wall switch, remote control or timer.

Kit Includes:

*   *White-Rodgers Valve (#210), 230k Btu.*
*   *18" Pilot Assembly with mounting bracket.*
*   *18" Stainless Steel Flex Lines, ½" (2).*
*   *Insulated Heat Shield with On/Off switch on front.*
*   *225° High Limit Switch on valve.*
*   *Assorted fittings for various burner threads.*
*   *OPTIONAL Remote Control: Compatible with RCK-I, RCK-K, RCK-B and RCK-D- see our Remote Controls on Pg. 84*

White Rodgers

MVK-HC36 *- 36" Pilot Assembly*
Same as the MVK-HC kit with a 36" Pilot Assembly.

Inspired by safety. Innovated for your lifestyle.

UMVK-NP - *Universal Natural Gas or Liquid Propane*

Universal Millivolt valve kit with flex line connection to main burner- for Natural Gas or LP. Uses Robert Shaw gas valve, 82k Btu that may be controlled with a wall switch, remote control or timer.

Kit Includes:

*   *Robert Shaw 7000Series Valve (#202), 82k Btu.*
*   *18" Pilot Assembly with mounting bracket.*
*   *10" Black Stainless Steel Flex Lines (2).*
*   *Insulated Heat Shield with On/Off switch on front.*
*   *225° High Limit Switch on valve.*
*   *Air Mixer / Orifice, Vermiculite and LP pilot orifice.*
*   *Assorted fittings for various burner threads.*
*   *OPTIONAL Remote Control: Compatible with RCK-I, RCK-K, RCK-B and RCK-D- see our Remote Controls on Pg. 84*

FLAME MODULATING- MMVK SERIES

MMVK-NQM, MMVK-PQM - *Flame Modulating, 3" Swivel Flare Connection*

Flame modulating Millivolt valve kit with 3" Swivel Flare connection to main burner. Uses Maxitrol gas valve, 85k Btu that may be controlled with a remote control.

Kit Includes:

*   *Maxitrol Gas Valve (#247), 85k Btu, 175°.*
*   *18" Pilot Assembly with mounting bracket.*
*   *3" Swivel Connector for easy valve / burner connection.*
*   *10" Black Stainless Steel Flex Line.*
*   *Insulated Heat Shield with On/Off switch on front.*
*   *225° High Limit Switch on valve.*
*   *Assorted fittings for various burner threads.*
*   *MMVK-PQM for LP Gas- also includes Air Mixer / Orifice, Vermiculite and LP pilot orifice.*
*   *OPTIONAL Remote Control: Compatible with RCK-M model only- see our Remote Controls on Pg. 85*

MMVK-NQMSI, MMVK-PQMSI
- *Built-in Spark Igniter*

Same as the MMVK-NQM & MMVK-PQM kits plus the added convenience of push-button spark igniter built into the valve.

MVRC255 - *Complete with Remote Control*

This kit combines the MMVK-NQM kit with the RCK-M remote control on Pg. 85

MVRC255P - *Complete with Remote Control*

Same as the MVRC255 kit but for Liquid Propane.

MILLIVOLT KITS *(CONTINUED)*

Let us assemble the kit tailored for your needs — you choose valve / pilot assembly, fittings, heat shield, etc. We assemble and package with your assigned part number - All in one box! -For use with Remote Control, Wall Switch, or Timer

REPLACEMENT VALVES

202

Convertible valve, for Natural or LP
- 225° rated valve
- Front Inlet Rear Outlet

200-D, 201-D

200-D For Natural gas
201-D For LP gas
- 225° rated valve
- Front Inlet Rear Outlet
- 6003 Series

210

- 250° rated valve
- 230k Btu
- LP conversion kit included
.- .750 VDC

PCOA071, PCOA072

PCOA071 for LP Gas
PCOA072 for Natural Gas
- Hi/Lo Millivolt valve

200-K

Dexen 6003-KN Variable Millivolt Nat. Gas Valve
- Hi-Low Regulator
- Quick Drop Out Safety Magnet-
- 1.7"-3.5" W.C., 3/8" Inlet
- 3/8" Outlet
- Front Inlet Rear Outlet

200-KS, 201-KS

Dexen 6003KS Series
- High / Low manual setting
Front- Inlet, Rear-Outlet
-Multi-Tap with 11/32 magnet
- 200-KS for Natural Gas
- 201-KS for Liquid Propane

MILLIVOLT VALVE CONVERSION

217LP, 217N, 216

217LP Converts 200 series Dexen and Robertshaw valves from Natural gas to LP gas
217N from LP gas to Natural Gas
216 Converts 200 series Dexen and Robertshaw valves from regulated to unregulated.

215, 215L

215 for Natural Gas
215L For LP Gas
Converts S.I.T Nova 820 valve to Hi/Lo capabilities for Natural Gas

223

Converts S.I.T Nova 820 valve to Manual Hi/Lo capabilities for Natural gas.

Inspired by safety. Innovated for your lifestyle.

69222

69224

73020 AND 73037

Model	Gas	Description	Thermopile
69222	NG	Manual ODS; Male Threads	No
69224	LP	Manual ODS; Male Threads	No
73020	NG	Millivolt ODS; Male Threads	Yes
73037	LP	Millivolt ODS; Male Threads	Yes

MILLIVOLT THERMOPILES

THERMOCOUPLE THREAD ADAPTORS

These adaptors allow for valve / thermocouple of different type threads to be used– allows for metric to be used with standard thread.

Two Types:

434: Metric M9 to Standard 11/32" threads.

436: Metric M9 to Metric M8 threads.

Model #	Description
434	Metric M9 to Standard 11/32" threads.
436	Metric M9 to Metric M8 threads.
293	High Limit Switch 175°, normally closed
211	High Limit Switch 210°, normally closed
212	On/Off Switch

Model	Length	Description
113	18"	Robertshaw - fits MVK-N & P Series
255	36"	Robertshaw - fits MVK-N & P Series
114	48"	Robertshaw - fits MVK-N & P Series

Robertshaw

ELECTRONIC IGNITION KITS

The Electronic Ignition system provides a safe shutdown in the event of an interruption in the gas supply or flameout. Offering the convenience of wall switch or remote control in conjunction with an interrupted pilot (IPI) provides a safe means of lighting the main burner. The electronic ignition system is energy efficient. HPC offers numerous kit configurations providing install flexibility and convenient use.

Benefits: Remote Control or Wall Switch capability, Manual or Thermostatic response, Flame Sensed, No Standing Pilot, Simple main burner ignition.

MVK-EI - *82k Btu, Battery Powered, Flex Line Connection*

Electronic Ignition valve kit with flex line connection to main burner. This kit is battery operated in the event of power outage-Optional 120Vac adaptor available. Complete electronic ignition kit uses Dexen EI gas valve, 82k Btu that may be controlled with a wall switch, remote control or timer.

Kit Includes:

- *Dexen Electronic Ignition Valve (#350), 82k Btu.*
- *Electronic Ignition Control Module (#350-M)*
- *24" IPI Pilot Assembly with mounting bracket; (Optional 36", 48" & 60" Pilot Assemblies- Pg.81)*
- *10" Black Stainless Steel Flex Lines (2).*
- *Battery Pack with two D-Cell batteries and Wiring Harness (Optional 120vac Power Adaptor- Pg.81)*
- *Insulated Heat Shield for Module / Battery Pack with On/Off switch on front.*

- *Insulated Heat Shield for gas valve.*
- *175° High Limit Switch on valve.*
- *Assorted fittings for various burner threads.*
- *LP applications use the EILPK kit*
- *OPTIONAL Remote Control: Compatible with RCK-I Series (On/Off) or RCK-K Series (Thermostatic)- see our Remote Controls on Pg. 84*

Need help? Use our fire pit selector at **hpcfire.com**

Honeywell

MVK-EIMC-1 *- 150k Btu, 24 Volts, Flex Line Connection*

Electronic Ignition valve kit with flex line connection to main burner. This system operates at 24 Volts- step-down transformer and 120v power cord included. Complete electronic ignition kit uses Honeywell EI gas valve, 150k Btu that may be controlled with a wall switch, remote control or timer.

Kit Includes:

- *Honeywell Electronic Ignition Valve (#210-EI), 150k Btu.*
- *Electronic Ignition Control Module (#210-EI MOD)*
- *36" IPI Pilot Assembly with mounting bracket. (For longer assemblies see Pg.82)*
- *24" Stainless Steel Flex Lines (2).*
- *24VAC Transformer & 6 ft. Power Cord*
- *Insulated Heat Shield for Module with On/Off switch on front.*
- *Insulated Heat Shield for gas valve.*
- *Assorted fittings for various burner threads.*
- *LP applications use the #577-A kit- See Pg. 82*
- *OPTIONAL Remote Control: Compatible with RCK-I Series (On/Off) or RCK-K Series (Thermostatic)- see our Remote Controls on Pg. 84*

MVK-EIHC-1 *- 270k Btu, 24 Volts, Flex Line Connection*

Same as the MVK-EIMC-1 kit with a 270k High Capacity Honeywell EI Valve (#210-EIHC).

MVK-EIHC415-1 *- 415k Btu, 24 Volts, Flex Line Connection*

Same as the MVK-EIMC-1 kit with a 415k High Capacity Honeywell EI Valve (#210-EIHC415).

Electronic Ignition Kits Reference Chart

Model	Btu	Ignition			Use with Optional Remote		Valve		For Burner Thread Type			Pilot Type

REMOTE CONTROL KITS - BATTERY POWERED

ON/OFF REMOTES

RCK-I

- Manual On/Off
- Backlit LCD
- Displays Room Temperature
- Insulated Heat Shield
- 400° High temp wires
- Overheat protection switch
- Self-matching receiver to transmitter
- Child Proof Switch
- Easy Access battery drawer

RCK-IS

- Same as RCK-I, but **without heat shield**

RCK-IW

- Same as RCK-I, but without 9' valve wires for in-wall installation. **Without heat shield**

THERMOSTATIC / TIMER CONTROL REMOTES

RCK-K

- Manual & Thermostat On/Off
- Celsius/Fahrenheit
- Insulated Heat Shield
- Overheat protection built into receiver
- 400° High temp wires already installed
- Easy access battery drawer
- Backlit LCD with clock & temp readout
- Child Proof
- Low Battery Indicator
- Room Temp Set Point
- Countdown Timer
- Self Matching receiver to transmitter

RCK-KS

- Same as RCK-K, but **without heat shield.**

RCK-KW

Same as RCK-K, but with **9' valve** wires for in wall installations. **Without heat shield.**

REMOTE CONTROL KITS - 120 VOLT POWERED

THERMOSTATIC/TIMER REMOTES

RCK-D

- Manual Thermostat On/Off
- Backlit LCD
- Child Proof
- Low Battery Indicator
- Room Temp Set Point
- Countdown Timer
- Clock
- Celsuis/Fahrenheit
- Insulated Head Shield
- 120 VAC

ON/OFF REMOTES

RCK-B

- Manual On/Off
- Child Proof
- Backlit LCD showing Room Temperature
- Insulated Heat Shield
- 120 VAC

Inspired by safety. Innovated for your lifestyle.

REMOTE CONTROL KITS - FLAME MODULATION

USED WITH MMVK-NQM, MMVK-PQM AND MVRC255 ONLY - PAGE 16

RCK-M

- Manual On/Off, modulating flame, remote control for use with our MMVK series kits, or kits from other manufacturers that use the Maxitrol GV34 valve.

Room Temperature is displayed on the LCD window of the transmitter. Use this as your guide to adjusting the flame up or down.

- Radio frequency signal for more control flexibility.
- Low battery indicator.
- Switch on the receiver allows flame adjustment from here if transmitter is disabled or out of reach
- Self matching receiver for easier frequency match up.
- Has insulated heat shield for receiver and 160° over heat shutdown to prevent damage to the receiver if it gets too hot.
- All required high temp (400°) wiring and batteries are included.
- Childproof lockout mode.

ULTRASONIC REMOTE CONTROL KITS

TRX-11

On/Off Ultrasonic Remote Control

For use in areas where there is heavy, high powered R/F interference or to prevent unwanted control of another fireplace/log set in another room.

TRX-25

Thermostatic Ultrasonic Remote Control

For use in areas where there is heavy, high powered R/F interference or to prevent unwanted control of another fireplace/log set in another room.

ON/OFF SWITCHES

WOOSK

White decorator Rocker on/off switch with wall plate. For use with any millivolt valve. Includes 25' of wire and connectors to fit onto any millivolt valve

REPLACEMENT COMPONENTS

242

RCK-I / RCK-K Heat Shield

MANUAL VALVE KITS

C65

Designed to be mounted to the burner pan or the pipe stub. Fits all standard type burner pans having 1/2 or, 3/8" inlet on the end of the burner tube. Includes 7" black "L" stem. **(90K Btu NG)**

C66U

Designed to be mounted to the burner pan or the pipe stub. Fits pans with 1/2" or 3/8" inlet. Includes two stem extensions and red printed knob. **(90K Btu NG)**

C66

Designed to be mounted to the ½" pipe stub bringing gas into the fireplace. **(90K Btu NG)**

Inspired by safety. Innovated for your lifestyle.

DECORATIVE KEY VALVES

Key Valve Part Numbers: Key Valves are numbered as either Angled or Straight, and based off of color. For example, MAFB is described as Manual Angled Flat Black. MSFB would be Manual Straight Flat Black.

STANDARD CAPACITY VALVES (1/2")
Angle or straight manual ball valve with flange and key. 1/2" inlet and outlet. For floor or wall mounting.

Recommended for gas shut off of 150k Btu or less

HIGH CAPACITY VALVES (3/4")
Angle or straight manual ball valve with flange and key. 3/4" inlet and outlet. For floor or wall mounting.

Recommended for gas shut off of 400k Btu or less

BURNERS AND PANS

BURNER TUBES

Dual Burners are designed for indoor fireplace and are a great addition to the Stainless Steel Log Grates. Made with 304 stainless steel with the ends welded shut. To accompany the dual burners, we offer a burner pan in 304 stainless steel designed specifically for our dual burners, and suspends burner 3/4" above fireplace floor. Measures 18" x 8", ends are 2" high and allows for pilot assembly mounting. Fits all HPC dual burners.

STAINLESS STEEL FLEX LINES

Stainless steel flex lines are becoming more and more popular because they solve so many difficult installation problems and are so easy to use. Available bagged or un-bagged (standard size only for un-bagged) or with 1/2". On/Off valve already installed.

FLEX LINE ONLY

WITH ON/OFF VALVE

HPC offers Low Capacity, Standard Capacity, and Tranquil Whistle– Free Flex Lines– for High Capacity Flex Lines, please see the Outdoor Fire Effects section.

LOW CAPACITY FLEX LINES

USDProducts

All Low Capacity Flex Lines are 3/8"OD-¼"ID, they come equipped with ½" female pipe threads on one end and 3/8" male pipe threads on the other.

Dormont
Setting the Standard in Gas Safety

FLEX LINE ONLY

Model #	Length
SSC-LC6	6"
SSC-LC12	12"
SSC-LC18	18"
SSC-LC24	24"
SSC-LC30	30"
SSC-LC36	36"

PLATINUM BRIGHT GLOWING EMBERS

PUTTING THE GLOW INTO YOUR FIREPLACE

Before Platinum Bright Embers

After Platinum Bright Embers

Features and Benefits

- Visually Superior to Wool Embers
- Platinum coating facilitates more complete gas combustion creating a brighter ember and increased radiant heat output
- Constructed of catalytic grade ceramic
- Embers will not deteriorate when burned

- Reduces soot formed by fuel decomposition on conventional wool embers

Model #	Description
PB-5	5 grams of Platinum Bright Embers

SPARK IGNITERS

690-AA

Mounts easily with 4 screws.
Use with an external switch.
Batteries easy to replace.
AA battery
Sealed battery Compartment
Dual ignition outlets
(Replaces #690)

691AA-HPC

Screw-in cap holds
unit in place. Uses 1 AA
battery. Sealed battery
chamber. Easy Battery
Replacement

130

Snap-in type
One spark-per-push button

131

Electrode to use with 130,
691AA-HPC or 690-AA

REGULATORS

670

Maxitrol Regulator - Natural Gas
1/2" x 1/2", set at 5.5" W.C. 4-8
adjustable.

670P

Maxitrol Regulator - LP Gas
1/2" x 1/2", set at 10" W.C. 8-12
adjustable.

MAXITROL

Model #	Gas	Description
690-AA	—	AA Spark Igniter
691 AA-HPC	—	AA Spark Igniter
130	—	Piezo Spark Generator
131	—	Spark Electrode
293	—	High Limit Switch 175°, normally closed
211	—	High Limit Switch 210°, normally closed
670	NG	Maxitrol Regulator
670P	LP	Maxitrol Regulator
73332	NG/LP	Universal Maxitrol Regulator
BSK	—	Temperature Switch
