

Commercial and Residential PRODUCT LINE CATALOG

The plumbing industry's innovator for over half a century

The brands professional plumbers choose.

At IPS Corporation, we're committed to making your job easier and more profitable, with innovative, highly-reliable products that help contractors work faster and smarter; and brands that help retailers differentiate themselves. Our customer service team is the most responsive in the business, and we will never stop working to exceed your expectations.

WELD-ON®

IPS CORPORATION

The era of plastic piping in the United States began in 1954 with the introduction of Weld-On® PVC 710™, America's first plastic pipe cement. Through the 1960s, IPS introduced several other PVC, transition and ABS cements, cleaners and primers. Today, Weld-On offers the widest range of solvent cements for plumbing, industrial grade pipe and fittings up to 30". Weld-On formulations are all low-VOC, all the time.

GUY GRAY™

IPS CORPORATION

Beginning with the industry's first washing machine outlet box in 1958, the Guy Gray line has evolved into a broad line of high-quality products, including FR-12 Fire-rated Boxes, Stainless Steel, White Powder Coated, Dual Drain, Dishwasher, Dryer, Gas, Coffee Maker and Dialysis Outlet Boxes. The initial offering of domestic valves now includes Single Lever, Quarter-turn and Hammer Arrestor Valves with Solder, PEX, CPVC and other connections.

WATER-TITE

IPS CORPORATION

In 1969, Water-Tite standardized laundry connections with the first plastic Washing Machine Recessed Outlet Box. In 1978, IPS's reputation as industry innovators expanded with the first recessed Ice Maker Outlet Box. Labor-saving products also include the 3 N 1™ Multi-Size Roof Flashing, Right Strap™ Multi-Functional Clamp, Single Shot Insulating Clamp, Techno Flange®, Angle Stop Boxes and Dimple Valve, and Stabilizer Support System. Today, the Water-Tite product line offers a wide range of plastic labor-saving specialty plumbing products.

TEST-TITE®

IPS CORPORATION

The Test-Tite® brand has over 40 years experience in manufacturing a complete line of pneumatic and mechanical test plugs. Our full line of pneumatic test plugs include standard, multi-size, cleanout, long and bypass pneumatic plugs for use in residential, commercial and underground markets. Pneumatic plugs, up to 15" diameter, come standard with a Pressure Relief Valve - the first full line of Pressure Relief Plugs in the Plumbing industry. Our pneumatic plugs come standard with a heavy wall thickness which allows us to offer a 3 year warranty. Our full line of mechanical test plugs include Twist-Tite wing nut test plugs, T-Cone Cleanout and Repair Plugs, Twist 'N Seal®, Flush Cleanout Repair Plugs, and the all new Mechanical Cleanout Test Plug.

Since 1931, the AB&A™ product family has grown to include a full line of plastic and brass bath wastes, plastic, cast-iron and brass plumbing drains and fittings, cleanouts and associated accessories. Easy-to-install AB&A bath wastes are offered in an assortment of special finishes to complement today's designs and customer preferences. A wide range of lavatory, floor and shower drains are available in plastic, bronze or cast brass. Recognized for consistent high quality, AB&A products are used in both new construction and retrofit markets.

In 1970, Studor's founder, Sture Ericson, developed AAV technology, which was brought to the United States in 1986. Today, Studor® remains the only specialized AAV manufacturer in the world, with millions of valves successfully installed in North America and worldwide. Studor has pioneered AAV technology since its introduction in the USA. Accordingly, AAVs are commonly referred to as "Studor vents" – the brand name in the industry. The expertise in designing plumbing systems by Studor engineers is unmatched. Remember, "It's not a Studor valve unless it says so!"

The Truebro line consists of protective undersink pipe covers and plumbing enclosures for ADA compliance in handicap-accessible lavatories and sinks – for both new construction and retrofit markets. The Lav Guard® 2, Lav Shield®, Basin Guard®, and Soft Guard Plus™ are professional ADA-mandated protection systems designed for durability, aesthetics, and sanitary installations. The Lav Guard® 2 series of undersink pipe wraps offer E-Z Tear to Fit and built-in fasteners for fast, easy installation. Lav Shield® is an attractive, designer-style, tamper-resistant ADA-engineered protective lavatory enclosure. Basin Guard® is a clean and durable design for ADA-compliance in lavatories installed into countertops.

The leading edge of product innovation

Water-Tite Combination Clamps

Designed to fit two different sizes of pipe, Water-Tite Combination Clamps eliminate the need to stock multiple clamp sizes. The line includes Combination Half Clamps, which feature a preloaded nail for fast installation and an angled seat for added stability with larger pipes, plus Suspension/Insulator Clamps for through-the-stud and suspended applications.

- Available in Half, 2-Hole, Suspension, Insulator and Suspension/Insulator styles
- Reduces inventory and installation times
- Compatible with CTS copper, PEX and CPVC piping
- Half Clamps available in ½" & ¾" CTS and ¾" IPS & 1 ¼" CTS sizes
- Full product listing on page 82

Water-Tite Professional Grade Drain Cleaner

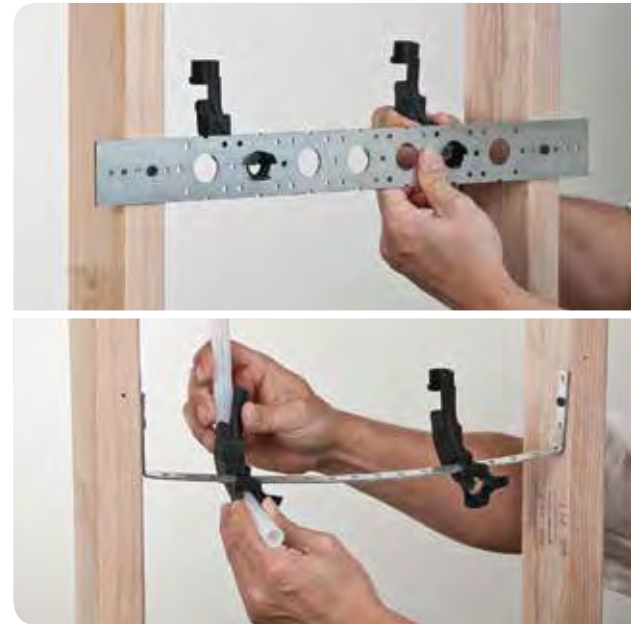

Formulated to dissolve the toughest clogs, Water-Tite Professional Grade Drain Cleaner offers the strength of a sulfuric acid emulsion plus the safety and convenience of an integrated, resealable bag. The acid-resistant bag helps prevent dangerous spills or leaks after opening – another industry first from IPS.

- Sulfuric acid-based emulsion liquefies organic contaminants on contact
- Dissolves grease, soap scum, hair, wood, sanitary napkins, paper and more
- Safe for PVC, cast iron, copper, steel and galvanized pipes, and septic tanks
- Resealable bag helps prevent damage or injury from spills or leaks
- Available in heavy-grade pitch bottles in quart, half gallon and gallon sizes
- For professional use only
- Full product listing on page 36

Water-Tite PEX Bend Supports

Designed to provide robust, 90-degree support for PEX Tubing, Water-Tite PEX Bend Supports offer three mounting options. When installed on the new PEX Bend Support Bracket, the supports can rotate a full 360 degrees with positive locking at 45-degree intervals.

- Mounts on stud or joist, through Water-Tite Stabilizer Bar, or into PEX Bend support bracket
- Reduces noise and vibration
- Plastic material eliminates cutting or scratching of tubing
- Allows room for expansion/contraction with changing water temperatures
- For residential or commercial applications
- Fits $\frac{3}{8}$ " and $\frac{1}{2}$ " tubing
- Full product listing on page 80

Water-Tite Washing Machine Outlet Box with SharkBite® Fittings

Combining the premier push-fit connection with Water-Tite's one-piece recessed outlet box's construction, this innovative Water-Tite outlet box installs much more quickly than separate drain and valve boxes. The multi-purpose push-fit connectors eliminate the need to stock a variety of connections. The box also includes a built-in, raised drip guard that sends valve or hose leaks safely down the drain.

- Dual drain, right drain, or left drain mounting options
- Easy-to-access, forward-mounted shutoff valves
- Links to copper, CPVC or PEX pipe
- Raised, integral test caps allow easy removal
- Full product listing on page 59

Test-Tite® Full Line of Pneumatic Test Plugs with Pressure Relief Valves

Pressure relief valves are now standard with all Test-Tite® Pneumatic Test Plugs – the industry's first full line of test plugs to offer this key safety feature. The built-in valve releases excess pressure above recommended inflation pressure, reducing the risk of over-inflation when testing or temporarily blocking DWV systems. Relieved air pressure exhausts through top of plug – not into the test area – and the plug returns to proper size and inflation pressure.

- Standard, long and bypass pneumatic plug styles
- Available in 1 ½" – 15" sizes for plumbing applications
- No moving parts to fail, malfunction, or plug
- Three-year limited warranty
- Full product listing on page 100

750™ HOTWELD Solvent Cement

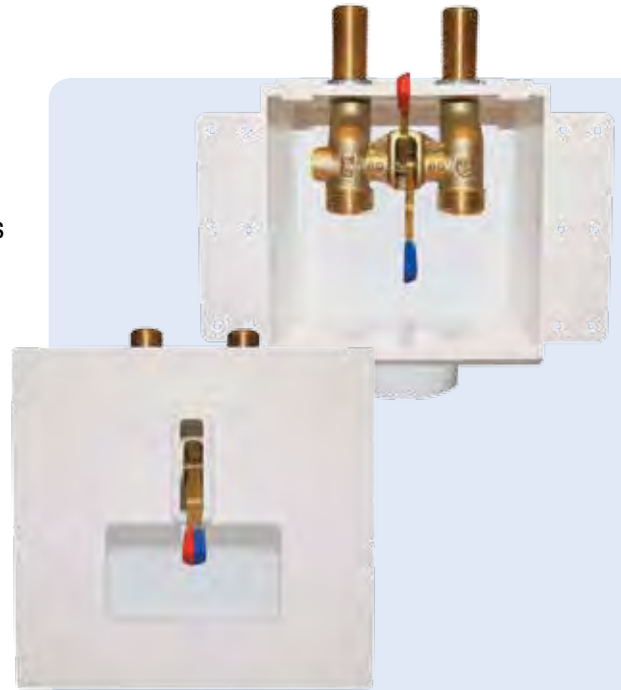

Weld-On 750 HOTWELD is the same all-weather, wet or dry, PVC solvent cement that professional contractors, manufacturers and repair professionals have trusted for over 20 years. Proven effective in wet, damp, cold environments, Weld-On 750 HOTWELD is a one-step, Low-VOC formulation that complies with LEED requirements.

- Medium-bodied, high strength, fast-setting
- Superior long-term performance
- Low VOC, LEED-compliant
- Full product listing on page 22

Guy Gray™ Dual Control Single Lever Washing Machine Outlet Box

Offering the quality construction and easy installation expected from Guy Gray, the new Dual Control Single Lever Washing Machine Outlet Box lets users control hot and cold supply lines together, or independently. The unique faceplate allows flush installation and covers the entire box for a clean finish.

- One-piece construction – no loose parts to assemble
- Built-in, raised drip guard sends hose leaks down the drain
- Snap-on frame
- Oversized knockouts won't fall down drain
- Full product listing on page 45

Studor® REDI-VENT® AAV with Tubular Adapter Tee

From the brand synonymous with air admittance valves comes another AAV advance: Studor® REDI-VENT® AAV with Tubular Adapter Tee. The tubular tee installs in-line with a tubular p-trap; the REDI-VENT mounts on the tee branch and is set the required 4 inches above the line.

- Valve screens protect sealing assembly from insects and debris
- Vents up to 20 DFUs
- Limited lifetime warranty for replacement of defective valves
- Full product listing on page 176

New and Improved Studor® Recessed Box for Air Admittance Valves

Offering an attractive, convenient way to conceal and access air admittance valves in DWV systems, the new and improved Studor® Recessed Box installs easily and features a snap-on grille for a sleek, clean finish. Small and low profile, the box also includes an industry-first integral test cap that enables leak testing and protection of the DWV system during construction.

- Connects to 1 ½" or 2" ABS or PVC vent pipe without adapters
- No additional framing or support required when installed to the stud bay
- For use with Studor MINI-VENT®, REDI-VENT®, or TEC-VENT® AAVs
- Includes integral test cap
- Carries UPC and ICC listings
- Full product listing on page 176

AB&A™ Heavy Duty Full Brass Shower Drain

Designed for use with copper shower pans, this new AB&A™ heavy duty full brass shower drain with clamping ring joins an already extensive line of brass drains. 3 ¾" center screw holes in the barrel accommodate existing round or square brass drain strainers.

- 2" FIP connection
- Stainless steel strainer
- Chromed brass barrel
- Full product listing on page 135

Full Lead-Free Product Offering

To comply with the “Reduction of Lead in Drinking Water Act,” IPS now offers a full line of lead-free compliant products. Packaging for all IPS lead-free products include the circle and checkmark logo; outlet box valves will also be stamped with the checkmark and include a new white handle for quick identification.

Includes Water-Tite and Guy Gray:

- **Ice Maker, Dishwasher and Coffee Maker Outlet Boxes**
- **Hammer Arresters**
- **Angle Stop and Toilet Connection Boxes**

Electrical Mast Roof Flashing

The new Electrical Mast Roof Flashing offers a fast, easy retrofit solution for a time-consuming job – replacing flashings around electrical masts on shingle roofs. This durable EPDM flashing features a one-piece design that eliminates the need to fabricate a standard vent pipe flashing onsite, or to unhook dangerous power lines.

- **Constructed of durable EPDM rubber**
- **Flashing base reinforced with strong, rigid galvanized mesh**
- **Manufactured to ISO 9001 standards**
- **20-year warranty**
- **Exceeds Dade County Chapter 15 flashing requirements**
- **Full product listing on page 97**

Dialysis Box

Joining our original, heavy-duty brand of Recessed Outlet Boxes, Guy Gray Dialysis Boxes are designed for reverse osmosis and deionized water mixed with dialysate saline concentrate. Featuring sturdy, stainless steel construction to prevent corrosion, the boxes are available with one- or two-supply valves, and contain a nominal 2" waste outlet.

- Access door may be positioned in any convenient orientation; door includes concealed hinge and Cam Cylinder lock w/two keys
- Tailpiece waste connection is 2 3/8" OD Stainless Steel, Stainless Steel adjustable wall faceplate for a clean, sleek finish
- PVC valves are ball-style with EPDM seals and O-ring; 1/2" FPT Schedule 80; flushing nipple is included
- Equipment drain tube support is located directly over drain to eliminate splatter and minimize clean-up
- Full product listing on page 54

Solar Rain Collar

The new and improved Solar Collar (RCS1) delivers a water-tight seal for roof-mounted solar energy systems. Installation-friendly, this new collar requires no mastic, caulking or taping. Combined with IPS solar flashings, RCS1 solar rain collars offer all the protection that solar energy systems demand.

- For commercial and residential solar mounting systems
- Mess-free installation
- Low profile design fits 7/8" to 1" leg supports
- Full product listing on page 97

IPS Corporation is committed to developing products that enable plumbing professionals to do quality work, faster.

- 1954 ○ **WELD-ON®**
First solvent welding products for America's plumbing industry
- 1969 ○ **WATER-TITE**
First plastic washing machine box
- 1978 ○ **WATER-TITE**
First ice maker box, recessing supply valve in the wall

- 2009 ○ **WELD-ON®**
Entire line of solvent cements and primers for plastic piping systems is all low-VOC, all the time
- 2010 ○ **TEST-TITE®**
Mechanical cleanout test plug requires no tools for quick installation
- **TEST-TITE®**
Patented pressure relief pneumatic test plug reduces risk of over-inflation
- 2011 ○ **AB&A™**
IPS Corporation acquires AB&A Corp. and its line of bath drains.
- 2012 ○ **WELD-ON®**
Weld-On launches a line of cements exclusively for the plumbing industry.
- 2013 ○ **WATER-TITE & GUY GRAY™**
IPS Corporation announces a full lead-free product offering.

1954 – Weld-On® pioneered the solvent cement industry

The plastic piping era in the United States began with the introduction of Weld-On®'s first plastic pipe cement. Ever since, Weld-On cements, cleaners and primers have been delivering industry-leading performance and revolutionizing plastic piping assembly.

Today's Weld-On® – all low-VOC, all the time

Recognized as the world's premium line of products for joining plastic pipes and fittings, today's Weld-On solvent cements, primers and cleaners all meet low-VOC (Volatile Organic Compound) emission limits. These eco-friendly, plumber-friendly products are yet another industry first, from the industry's first plastic pipe cement provider.

ALL SEAL™ Beige Plastic and Metal Pipe Thread Sealant

- Multi-purpose sealant
- Slow drying, soft-setting, formula allows ample time to work with pipe joints. Also easy for disassembly
- Creamy, non-separating consistency provides excellent thread coverage
- Very low-VOC content: 152 g/L
- Product is grit-free to provide leak-proof seal on pipe threads
- For sealing and lubricating all metal and plastic (ABS, PVC, CPVC, Polypropylene & Nylon) piping systems carrying various materials¹
- 2-year shelf life

BLUE SEAL™ Blue Plastic and Metal Pipe Thread Sealant

- Industrial grade sealant
- Excellent for industrial applications and pipe lines in high vibration environments
- Contains finely homogenized PTFE particles for filling cracks and thread imperfections – ensuring leak-proof seal
- Heavy duty, grit-free formula
- For sealing and lubricating all metal and plastic (ABS, PVC, CPVC, Polypropylene & Nylon) piping systems carrying various materials¹
- Zero VOC content
- 3-year shelf life

WHITE SEAL PLUS™ White Plastic and Metal Pipe Thread Sealant

- Multi-purpose sealant with PTFE
- Contains finely homogenized PTFE particles for filling cracks and thread imperfections – ensuring a leak-proof seal
- Non-setting formula allows easy disassembly of joints without damage to pipe, fittings or threads
- Protects threaded areas from rust and corrosion and prevents galling
- For sealing and lubricating all metal and plastic (ABS, PVC, CPVC, Polypropylene & Nylon) piping systems carrying various materials.¹ Compatible with FlowGuard Gold®, BlazeMaster® and Corzan®
- Zero VOC content
- 3-year shelf life

FlowGuard Gold®, BlazeMaster®, and Corzan® are registered trademarks of The Lubrizol Corporation.

¹ ALL SEAL™, BLUE SEAL™ and WHITE SEAL PLUS™ can be used on **metal and plastic** piping systems carrying air and gases (compressed, manufactured or natural), ammonia, brine, acid (diluted), caustic alkalis (diluted), corrosives, freons, fuel (diesel, gasoline, jet fuel, and kerosene), oils, petroleum, propane, solvents, steam, sugar and water. Not recommended for oxygen, fluorine or liquid sodium systems.

CATEGORY 2

505™ Key-Tite® Green Metal Pipe Thread Sealant

- Special formulation seals and lubricates metal pipe joints as well as protects them from rusting and seizing
- Applicable for all types of metal joints (threaded, flanged or gasketed)

- For sealing and lubricating all metal piping systems carrying various materials¹

Professional Drain Cleaner (93% Sulfuric Acid) NEW

- Highly inhibited sulfuric acid - bonds to all organic matter and quickly liquefies contaminants on contact
- Quickly dissolves grease, soap scum, hair, wood, sanitary napkins, paper and other materials that cause common clogs
- Safe for use in PVC, cast iron, copper, steel and galvanized piping systems and septic tanks
- Can cause severe burns. Harmful or fatal if swallowed. Contains inhibited sulphuric acid

- Unlike other products delivered in disposable plastic bags, the Water-Tite product's patent-pending, resealable bag is permanently integrated with bottles
- Integrated acid-resistant bag can help prevent damage or injury from spills or leaks after bottles have been opened
- Available in heavy grade pitch bottles in quart, half gallon and gallon sizes
- Formulated for use by plumbing professionals only. Not for use by or sale to consumers. Can cause harm/death

The first-ever washing machine outlet box manufacturer

Starting with the original washing machine outlet box in 1958, the Guy Gray™ line has always featured innovative metal-box solutions to keep pace with an ever-evolving industry.

Now the first choice for all metal outlet boxes

What began as a handful of galvanized metal boxes is now an extensive, widely trusted product line – the industry's No. 1 choice in metal outlet boxes. Guy Gray™ also offers a wide range of domestic valves and fire-rated boxes.

Dual Control Single-lever Washing Machine Outlet Box **NEW**

- Hot and cold valves can be operated individually or together. Inserting pin through lever holes combines controls.
- Faceplate design allows flush installation and covers the entire box for a clean finish
- Solid, one-piece high-impact resin construction with raised drip guard contains and directs hose leaks down the drain
- One-piece box design, no loose parts to assemble
- Snap-on frame
- Oversized knockouts will not fall down drain

FR-12 Plastic Washing Machine Outlet Box with Single-lever Valve

- Intumescent pad attached to back of outlet box
- Molded-in test cap for testing of DWV drain system – test cap will not fall down the drain
- Snap-on frame accommodates up to 1" drywall and is interchangeable with all FR Fire-rated plastic outlet boxes
- Simple installation – just nail or screw to stud
- Preloaded nails for right or left stud bay installation
- Rough opening: 6" W x 6" H x 3 1/8" D

- Faceplate dimension: 8 5/16" W x 7 7/8" H
- One faceplate fits washer, ice maker, gas, AAV and auxiliary drain outlet boxes
- Warnock Hersey certified
- 1hr & 2hr rated
- Made of high temperature resin
- No special wrapping or sheet rock fabrication needed
- City of LA listed

Dialysis Box **NEW**

- Built from 300 series stainless steel to prevent corrosion
- Access door may be positioned in any convenient orientation; includes concealed hinge and Cam Cylinder lock and two keys
- Stainless steel wall flange provides multiple, mounting options to cover space between wall and box; secure with Phillips head screws (supplied)
- Waste outlet can be directly connected to 2" nominal size glass or plastic drain with mechanical coupling
- Tapped holes on mounting plate allow for easy assembly of valves

- Tailpiece waste connection is 2 ⅝" OD stainless steel
- Interior seams are continuous welded with a bead blast finish to provide a water-tight seal and smooth finish
- Equipment drain tube support is located directly over the drain to eliminate splatter and minimize clean up
- PVC valves are ball-style with EPDM seals and O-ring; ½" FPT Sch 80; flushing nipple is included
- Single or double valve capability for greater flexibility
- Large mounting flanges provide easy securement of box to wall, eliminating the need to build supports

Saving time and effort since 1969

The Water-Tite Washing Machine Recessed Outlet Box – the industry's first plastic construction – standardized laundry connections in 1969. In 1978, Water-Tite's recessed Ice Maker Outlet Box allowed contractors to save more time in the kitchen too.

More labor-saving specialty products than ever

For more than 40 years, Water-Tite products have been helping plumbers reduce installation time while maintaining a high level of quality. Today, Water-Tite's line includes a wide range of innovative, labor-saving specialty plumbing products. From roof flashings and residential drains to support systems and much more, Water-Tite has the products that help plumbers work faster and smarter.

Water-Tite offers a comprehensive line of Washing Machine Outlet Boxes, Handles, and Valve Connections for your installation needs. All Water-Tite and Guy Gray® valves comply with ASME A112.18.1. All integral hammer arrester valves also comply with ASSE1010. See the following pages for additional details on all of the components.

DU-All™ Dual-Drain Washing Machine Outlet Boxes

- Patented one-piece design speeds installation versus separate drain and valve boxes – Patent # 4,934,410
- Back of box rests against the back sheetrock wall for sturdy installation
- Solid one-piece construction with raised drip guard contains and directs leaks down the drain
- Forward mounted valves give easy access for on/off operation
- Various valve-mounting options allow dual drain, right drain only or left drain only
- Can be inverted for top-mount and center drain option
- Flat box side for secure mounting to the stud

- EZ Out Test Caps are raised for easy removal and KOs are oversized so they won't fall down drain
- Textured, snap-on frame with hot and cold supply designations embossed on front, accommodates up to 1" drywall for a clean finish
- DU-All™ and Center Drain Econo Box faceplates are interchangeable
- Rough opening: 8 1/4" W x 6 1/8" H x 3 3/4" D
- Faceplate dimension: 10 3/16" W x 8 13/16" H
- Extended mounting flange provided
- Faceplate unassembled in contractor packs

Round Ice Maker Outlet Box with Hose

- 72" stainless steel braided hose comes attached to valve
- Hose is replaceable
- Round faceplate enables easier installation after wallboard is installed
- Flat-sided walls ensure rigid mount against stud bay
- Rough opening: 6" diameter x 3 1/2" deep
- Faceplate diameter: 8" round
- Protective cover protects valves and hose from paint and debris during construction
- Additional top knockouts molded in box to allow for mounting shut-off valves or gas valves
- Faceplate unassembled in contractor packs
- Four molded-in flanges enable easy and secure installation

Shock Busters™ Hammer Arresters

Ignoring water hammer can lead to costly damage within any plumbing system. Water-Tite "AA" Single Fixture Shock-Buster™ Hammer Arresters are the solution to eliminating water hammer in residential and light commercial supply lines. All our Hammer Arresters are manufactured to the highest standards that our customers have come to expect. Shock-Buster Hammer Arresters contain all the necessary approvals to pass code inspection in any territory. "AA" Hammer Arresters must be installed as close to the valve as possible; recommended to be no more than 6' from the valve being protected.

- "AA" single fixture size
- Guaranteed for the lifespan of the plumbing system
- UPC listed
- ASSE Certified to ANSI/ASSE 1010-2004 standard
- Approved for sealed wall installations with no access panel required
- May be installed at any angle
- Conforms to IPC Code

CATEGORY 5

Angle Stop Connection Boxes

- Patent # 5,423,345 & 5,558,119 & 5,653,254
- Box 6 1/8" W x 7 1/8" H x 3 3/8" D
- Drain connection with knock-out test cap molded in box couples with standard 1 1/2" DWV fitting hubs
- Reduces numerous labor steps through 2 construction phases to a few easy steps in a single phase
- Eliminates the temporary materials needed to stub-out supply and drain systems for sinks, lavatories and laundry/utility trays
- Lead-free compliant

- Frame 8" W x 9" H
- One-piece box with surrounding flange needs no additional support framing and labor and allows nailing directly to stud or intricate positioning on stabilizer bars
- Box may be mounted at any rotation (drain to the top, bottom, right or left)
- Snap-on frame accommodates up to 1" drywall
- Quarter-turn or domestic valves available
- Faceplate unassembled in contractor packs

"The Dimple" Toilet Connection Boxes

- Box: 3" diameter
- Mounting plate: 4" x 4"
- Trim ring: 4 3/8" diameter
- Eliminates the temporary materials needed to stub-out supply systems for toilets or other single supply fixtures
- Quarter-turn or domestic valves available
- Lead-free compliant

- Reduces numerous labor steps through 2 construction phases to a few easy steps in a single phase
- Mounting plates allows nailing directly to stud or intricate positioning on stabilizer bars
- Snap-on trim ring accommodates up to 3/4" drywall
- Patent # 5,469,882 & 5,577,530

Mini Round Gas Outlet Box

- Provides a recessed valve installation allowing appliances to be closer to wall
- Preloaded nails provide a strong rigid mount
- Nails are reversible and box can be mounted to the left or right-hand stud bay
- Two valve options: ½" iron pipe & ½" CSST Tubing

- Valves are CSA listed
- Test plug provided for testing of valve assembly
- Round trim ring fits mini ice maker box & accommodates up to 1" sheet rock
- Molded side support brackets support box to stud bay
- Faceplate unassembled in contractor packs

Long Closet Flange NEW

- Allows for plumbing in tight areas
- Available as all plastic or with stainless steel adjustable ring

- Available with or without knockout
- Fits 3" or 4" Sch. 40 DWV Pipe

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
86147	Long Closet Flange – PVC	4846S	012181-861479	2.650	10	6
86148	Long Closet Flange – ABS	5846S	012181-861486	2.650	10	6

Repair Closet Flange NEW

- 3" Hub size (inside existing 4" x 3" closet flange) requires no chiseling, cutting or drilling to remove existing flange hub
- Eliminates risk of debris falling down drain line from removal of old hub
- Rubber gasket creates a water tight seal

- Unique metal clips secure the flange with existing 4" x 3" hub or pipe
- Models allow flush installation inside 3" hub, 3" pipe or 4" pipe
- For residential and commercial applications
- Patent Pending

Push 'N Repair® Closet Flange

- One-piece construction / gasket permanently attached to hub of flange
- Seals the entire length of the tailpiece extension
- Can be cut to desired length
- Available in PVC or ABS
- No bolts to tighten

- Full 3" of flow, no obstructions of bolts
- Easy push-in installation
- Pre-lubricated gasket
- Fits 4" PVC, DWV, No-hub-service weight & extra heavy cast iron

PEX Bend Supports NEW

- Provides versatile, rigid, 90-degree support for PEX tubing
- When snapped into PEX bend Support Bracket, offers a full 360-degree rotation with positive locking at 45 degree intervals
- Reduces noise and vibration
- Plastic material eliminates cutting or scratching of tubing
- For residential or commercial applications
- Provides versatile, rigid, 90-degree support for PEX tubing
- Fits 3/4" and 1/2" tubing
- Offers three installation options – mounting directly to stud or overhead joist, through stabilizer bar, or snapped into PEX Bend support bracket
- When snapped into PEX bend Support Bracket, offers a full 360-degree rotation with positive locking at 45 degree intervals

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case

Horizontal Run Stabilizer Bar Kits

- Insulators are available for horizontal runs of 1/2" or 3/4" tube
- Compatible with copper, CPVC, and PEX tubing
- Kits include a 20" or 26" stabilizer bar, 2 tube insulators and 4 nails
- Horizontal insulators are available in CPVC
- Impact-resistant to 0°F (-18°C) Max temp: 160°F (71°C) continuous

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case

Plastic Stabilizer Insulators

- Plastic insulators are available for vertical and horizontal tube runs
- Horizontal insulators fit ½" and ¾" tube
- Vertical insulators fit ½" or ¾" tube
- To be used with stabilizer bar

- Impact-resistant to 0°F (-18°C) Max temp: 160°F (71°C) continuous
- Stabilizers covered by one or more of the following U.S. Patents: 5,154,375; 5,236,158; 5,230,488; 5,267,710; 5,370,345

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case

Right Strap™ Multi-Functional Pipe Clamps

- Patent # 6,073,891
- Installs 3 ways – half clamp, full clamp or J-hook
- For all metal and plastic 1/2", 3/4" and 1" copper tube size materials
- Compatible with CPVC piping systems

- Factory-assembled for half-clamp installation
- Allows for expansion and contraction of supply tubing
- Greatly reduces the chance for noise common to overly restrictive systems
- No pinning, no binding, no complaints!

Long Pattern Pipe Insulators

- Long Pattern insulators isolates supply tube from wood
- Compatible with copper, CPVC and PEX tubing

- Impact-resistant to 0°F (-18°C) Max temp: 160°F continuous

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
82967	½" Long Pattern Insulator/Gray/25 bag	82967	012181-829677	3.207	1000	34
82968	¾" Long Pattern Insulator/Gray/25 bag	82968	012181-829684	3.207	1000	26

Combination Suspension/Insulator Clamp **NEW**

- Fits two sizes of pipe
- Fits CTS copper, CPVC and PEX tubing

- Impact resistant to 0°F (-18°C), max temp: 160°F continuous

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
82979	Combination, Supports ½" & ¾" CTS (50/Bag)	CI1341234	012181-829790	1.19	500	9.7

Metal Stud Insulators

- For use in metal studs and galvanized super-tight brackets
- Plastic pipe insulator reduces noise from tubing expansion and contraction
- Impact-resistant to 0°F (-18°C) Max temp: 160°F continuous
- Supports copper, CPVC and PEX, tubing through metal studs
- Fits 1 11/32" hole

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
89148	Supports 3/8", 1/2", 3/4" CTS (50/Bag)	MSI1	012181-891483	0.650	500	5
89150	Supports 1/2" CTS (100/Bag)	MSI3	012181-891506	1.076	1000	8
89151	Supports 3/4" CTS (100/Bag)	MSI4	012181-891513	1.076	1000	8
89152	Supports 1" CTS (50/Bag)	MSI5	012181-891520	0.646	500	3

Metal Stud Insulators For CPVC Piping

- CPVC Pipe can be cemented to insulator
- Isolates supply tubing from metal studs
- Impact-resistant to 0°F (-18°C) Max Temp: 160°F (71°C) continuous
- Plastic metal stud insulators
- Compatible with CPVC pipe
- Fits 1 11/32" hole

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
89158	Supports 1/2" CTS (100/Bag)	MSI6	012181-891582	0.390	200	2
89161	Supports 3/4" CTS (100/Bag)	MSI7	012181-891612	0.390	200	2

Metal Stud Insulators For DWV Piping

- Plastic metal stud insulators for DWV piping
- Isolates DWV piping from metal studs
- Impact-resistant to 0°F (-18°C) Max Temp: 160°F (71°C) continuous

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
89165	Supports 1 1/2" DWV in metal studs (25 per bag)	MSI15	012181-891650	1.8	500	12
89166	Supports 2" DWV in metal studs (25 per bag)	MSI20	012181-891667	1.8	500	8

Metal Stud Punch

- Lightweight, high-strength
- Non-slip rubber grips

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
89160	Punch, Offset head, 1 1/2" hole in up to 22ga; for 1/2" through 1" CTS Metal Stud Insulators	MSP1	012181-891605	0.244	1	8
89164	Punch Offset head, for 1 1/2" and 2" DWV Metal Stud Insulators	MSP2	012181-891643	0.244	1	8

CATEGORY 16

Plastic Hanger Strapping

- Flexible, non-conductive, non-abrasive
- Can be cut with shears, snips or utility knife

- ¾" wide, .050 thick with ¼" holes spaced ¾" apart
- Supports 25 lb. per section at 4-foot intervals

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
83030	10' Roll x ¾" (50 mil., 125 lb. Test)	RHS10	012181-830307	0.713	20	4
83035	25' Roll x ¾" (50 mil., 125 lb. Test)	RHS25	012181-830352	0.507	20	8

DWV ABS Hang-Tite™ Pipe Holders

- New I-beam construction so shaft will not flex
- ¾" snap lock saddle on 1½" – 4" Hang-Tites
- Saddle wrap around exceeds 75% of pipe circumference to eliminate popouts
- Allows for expansion & contraction

- Nails attached to top of J-Hooks
- Nail holes spaced 1" apart on both sides of I-beam shaft
- High-impact-resistant ABS material
- For PVC or ABS schedule 40 DWV pipe
- Hang-Tite™ Extension available

Sure-Tite™ Support Brackets

- Sure-Tite™ copper-plated brackets are available in two lengths, 20" & 26", for use in residential or commercial applications
- Can be nailed or screwed to wood or metal studs
- For use on lavatories, toilets, hose bibs, water heater or any water supply penetrating a wall
- Brackets available with several hole patterns depending on your need
- Simple installation, just nail bracket in place and solder the pipe to bracket
- Reduce cost in the field, less expense than fabricating brackets or cutting wood blocks
- Rigid installation

Adjustable 3 N 1® Rain Collars

- Can be used to repair the elastomer sealing collar on all types of residential "no caulk" roof vent flashings quickly and easily
- Eliminates the need for a mastic or caulking type messy repair job
- Can be used to instantly repair a leak during a wet period, until the flashing can be replaced at a later time
- Large size covers the entire existing elastomer collar
- Fully tested for ultraviolet, ozone and weather resistance
- Individual sizes and multi-size adjustable models available
- Better appearance than a mastic repair job, which means a more satisfied customer

Standard Size Rain Collars

- Can be used to repair the elastomer sealing collar on all types of residential "no caulk" roof vent flashings quickly and easily
- Eliminates the need for a mastic or caulking type messy repair job
- Fully tested for ultraviolet, ozone and weather resistance
- Better appearance than a mastic repair job
- Can be used to instantly repair a leak during a wet period, until the flashing can be replaced at a later time
- Large size covers the entire existing elastomer collar
- For patching leaking no-caulk-style flashings
- Individual size and multi-size adjustable models available

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case

Custom powder-coated colored flashings available, call customer service for availability.

Caution: Do not use Petroleum base mastics, sealing compounds or paints on collar portion of all flashings, on all hardbase, flexible or rain collars.

Low-Profile Rain Collars

- For all metal style roof flashings
- Designed to fit all metal coned roof jacks/flashings 1"-4"
- Requires no mastic, caulking or taping for a total waterproof seal
- Low-profile size
- Manufactured using a special EPDM material with UV inhibitor
- Life of the roof system warranty

Electrical Mast Roof Flashing

- Simplifies replacement of deteriorating flashings around electrical masts on shingle roofing
- Split-boot design
- Constructed of durable EPDM rubber
- Flashing base is reinforced with strong, rigid galvanized mesh
- 20-year warranty
- Manufactured in an ISO9001 registered factory

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
81746	Electrical Mast RetroFit Roof Flashing, 0 to 3 3/8"	EFB1	012181-817469	15.365	15	17

Adjustable Multi-Size Metal Roof Pipe Flashings

- Each flashing is adjustable to fit several pipe diameters – eight models to fit 1/4" through 13" pipe sizes
- Made of long life, flexible, weatherproof EPDM rubber
- Flexible, corrosion-resistant aluminum base ring conforms to any roof panel configuration
- One-piece construction for easy installation
- UV- and ozone-resistant EPDM rubber won't crack
- Clearly marked pipe diameters ensure a tight accurate fit
- Pleated cone adjusts to any roof pitch
- Continuous service temperature range of -65°F to 250°F

Custom powder-coated colored flashings available, call customer service for availability.

Caution: Do not use Petroleum base mastics, sealing compounds or paints on collar portion of all flashings, on all hardbase, flexible or rain collars.

40+ years of field-tested reliability

For more than four decades now, Test-Tite® products have featured a full range of pneumatic and mechanical test plugs. Plumbers worldwide have come to rely on Test-Tite time- and field-tested plugs, turning to them for use in residential, commercial, and underground markets.

Test plugs, tools, hoses and more

Test-Tite pneumatic plugs come with a three-year warranty and include the full plumbing line of Pressure Relief Test Plugs up to 15" in diameter. Test-Tite mechanical plugs feature the all new patented Mechanical Cleanout Test Plug, as well as the Flush Cleanout Repair Plugs. The full Test-Tite product line also includes test caps, hoses and accessories.

CATEGORY 11

Pressure Relief Pneumatic Test Plug NEW

- Pressure relief automatically resets for each inflation
- Pressure relief has no moving parts to fail or malfunction
- Molded as one-piece with no seams or bonded parts
- Pressure relief exhausts out of the top of the plug not into test area
- Works in place of "standard" pneumatic plugs

- Internal pressure relief device releases pressure when plug exceeds maximum pressure levels
- 5 sealing ribs in the center portion of the plug for positive sealing
- Three-year limited warranty
- Patent #7,597,118

Standard Pneumatic Test Plugs

- Designed for testing or to temporarily stop the flow
- Each size is designed for one specific pipe size
- Can be used in a variety of fitting applications and are suitable for most pipe materials
- Conforms to irregular pipe shapes to seal effectively
- Manufactured from a durable natural rubber

- 5" and 6" diameter plugs come with a replaceable pressure relief valve and a 12" chain and a ring assembly
- 8" and larger plugs come with a replaceable pressure relief valve and an eyebolt for tethering
- Metal cap/core tool is also included

Multi-Size Dual Stage Long Pneumatic Test Plugs

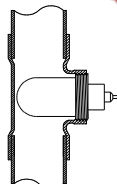

- Designed for the testing of pipelines or to temporarily stop the flow
- Designed to be used in a "Y" to block flow from the main sewer line
- The multi-size dual-stage long is designed to release the test media before completely deflating and removing the plug

- Suitable for many different pipe materials
- Manufactured from a durable natural rubber compound
- Each size comes with a 24" chain and ring assembly attached to a pressure relief valve
- Also included with each plug is a 36" inflation hose

Pneumatic Cleanout Test Plugs

Deflated view

- Designed for the testing of plumbing pipelines above the cleanout tee
- Each size is designed for one specific pipe size
- Design of this plug will allow for passing of the test water or air by deflating the plug

- After deflation, the plug can be unscrewed from the test tee
- Manufactured from a durable natural rubber compound
- Each size comes with a molded-in inflation valve

Pneumatic Bypass Plugs

- Designed for the bypassing of water or sewage in pipelines or to temporarily stop the flow
- Can also be adapted to use in air testing of sewer lines
- Each plug is designed for one pipe size
- Plugs can be used in a variety of applications and are suitable for many different pipe materials

- Manufactured from a durable natural rubber compound
- Sizes 1½" through 5" come with a 12" chain and ring assembly
- Sizes 3" and larger come with a pressure relief valve
- Sizes 6" through 15" come with an eyebolt for connecting a rope or inflation/lift line

Multi-Size Pneumatic Back Air Test Plugs

- Designed for the testing of pipelines or to temporarily stop the flow
- Can be used individually as a test plug or along with a Front Air Test Plug for testing
- Each plug is designed for two or more pipe sizes
- Plugs are suitable for many different pipe materials

- Manufactured from a durable natural rubber compound
- Sizes 12" through 24" and smaller come with pressure relief valve
- Each size comes with eyebolts at each end for connecting directly to another Air Test Plug or to fasten a rope or inflation/lift line

Drain Flush

- Connects to garden hose to safely, cleanly, and easily clear drain pipes of obstructions with water pressure
- Works in minutes without harsh chemicals
- Effective up to 1,000'
- Sizes available for most common residential drain applications
- Completely reusable
- One-year replacement guarantee

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case

Mechanical Cleanout Test Plugs

- Patent pending
- Clear cap provides a "window" to monitor the test media as it drains
- Expandable rubber gasket provides air and water tight seal
- Tests up to 40 vertical feet
- Durable design; plated steel parts will not rust
- No tools, hoses or gauges are required for installation
- Hand-tighten in seconds
- Available in 2-, 3-, 4- and 6-inch diameters
- Patent #8,042,576

Combination Kap-On Test Caps

- Moderate-pressure test cap
- Higher rated than plug-on test caps
- For 1 ½", 2", 3" and 4" DWV pipe

- Each cap can be used for two sizes
- Solvent-welded onto PVC or ABS pipe
- Can be tested up to 30' of water or 12 psig

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
86615	Tests 1 ½" & 2" DWV Pipe (100/Bag)	KO 12	012181-866153	1.660	500	22
86620	Tests 3" & 4" DWV Pipe (50/Bag)	KO 34	012181-866207	2.120	250	26

Plug-On Test Caps

- Low-pressure test cap
- For 1 ½", 2", 3" and 4" DWV pipe

- Solvent-welded onto PVC or ABS pipe
- Can be tested up to 10' of water or 4.3 psig

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
85000	Tests 1 ½" DWV Pipe (100/Bag)	5817 P1½	012181-850008	2.120	2000	18

Broader offering for plumbing wholesalers and contractors

IPS Corporation acquired the American Brass & Aluminum Foundry (AB&A™) in 2010. Since 1931, the AB&A™ product family has grown to include a full line of plastic and brass bath wastes, plastic, cast iron and brass plumbing drains and fittings, cleanouts, and associated accessories.

High quality wastes and drains

Easy-to-install AB&A bath wastes are offered in an assortment of special finishes to complement today's designs and customer preferences. A wide range of lavatory, floor, and shower drains are available in plastic, bronze, or cast brass. Recognized for their consistent high quality, AB&A products are used in both new construction and retrofit markets.

There's a reason everyone calls AAVs "Studor®" vents

When Studor developed the first Air Admittance Valves in the 1970s, it was developing AAV technology that would become the standard. The technology provides Drainage Waste and Vent systems the option to reduce the number of vents through the roof and allows for only one open vent to the atmosphere per building system.

Still the only specialized AAV manufacturer in the world

Studor AAVs were introduced to the U.S. in 1986, and Studor engineers have been refining the technology ever since. Today, the Studor line of specialized AAVs is bigger than ever, offering the most complete AAV line on the market – with millions of valves installed in North America and worldwide.

CATEGORY 22

MAXI-VENT®

The unique design of the Studor® MAXI-VENT® provides plumbing ventilation to prevent the loss of water seals in traps without the need for costly roof penetration and vent piping.

- Can be used as an individual, branch, circuit or stack vent
- Will vent up to 500 DFUs on a stack
- Fits 3" and 4" pipe sizes
- Reduces the number of fire-stopping applications
- ANSI/ASSE 1051, ANSI/ASSE 1050, NSF 14, Warnock Hersey, ICC-ES PMG-1025, C-IAPMO
- Exclusive vermin protection system
- Limited lifetime warranty for replacement of defective valves
- Residential or commercial use
- Expands architectural design limits

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case

MINI-VENT®

The unique design of the Studor® MINI-VENT® provides plumbing ventilation to prevent the loss of water seals in traps without the need for costly roof penetration and vent piping.

- Can be used as an individual, branch, circuit or stack vent
- Fits 1 1/2" and 2" pipe sizes
- Will vent up to 160 DFUs on a branch
- Will vent up to 24 DFUs on stack
- Expands architectural design limits
- Reduces the number of fire-stopping applications
- Exclusive vermin protection system
- Limited lifetime warranty for replacement of defective valves
- Residential or commercial use
- ANSI/ASSE 1051, ANSI/ASSE 1050, NSF 14, Warnock Hersey, ICC-ES PMG-1025, C-IAPMO

REDI-VENT®

Simplify drainage and waste venting with the Studor® REDI-VENT™ Air Admittance Valve.

The unique design of the Studor® REDI-VENT provides ventilation to prevent the loss of water seals in traps without the need for expensive roof penetration and vent piping.

- For venting single fixtures, kitchen sinks and bathroom groups including back to back applications up to 20 DFUS
- Exclusive vermin protection system
- Expands architectural design limits
- Compact design for tight applications
- Fits 1 ½" and 2" pipe sizes
- Limited lifetime warranty for replacement of defective valves
- Residential or commercial use
- ANSI/ASSE 1051, ANSI/ASSE 1050, NSF 14, Warnock Hersey, ICC-ES PMG-1025, C-IAPMO

AAV-TEE **NEW**

- Tubular tee installs in-line with 1½ or 1¼ tubular trap
- Includes REDI-VENT air admittance valve capable of venting up to 20 DFU

- Tee branch mounts REDI-VENT the required 4" above the horizontal drain line

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
20391	AAV Tee with REDI-VENT	20391	764651-203912		6	2.5

PAPA™

The Studor® P.A.P.A.™ is the perfect compliment to the existing range of Studor Air Admittance Valves (AAVs). Together they form the Studor System: a Total Solution to a building's venting requirements.

Studor Air Admittance Valves will protect the water seal of the system's branch fixtures while the P.A.P.A. effectively deals with positive pressure. This combination maintains perfect system balance, quickly and efficiently restoring even atmospheric pressure conditions throughout the system thus avoiding siphonage of any trap.

The Advantages:

The Studor P.A.P.A. as part of the complete Studor System

- Provides complete protection against positive pressures in the system
- Replaces extensive vent piping saving material and installation costs
- Provides greater freedom of design for engineers, architects and design professionals
- Reduces the need for fire stopping devices preventing the chimney effect in the pipes, reducing the risk of fire spreading upwards between floors
- Eliminates leak prone roof penetrations—only one roof penetration is required no matter how tall the building
- Can be retrofitted into an existing drainage system to solve positive pressure problems
- Prevents propagation of odorous sewer gases
- Requires no maintenance, as all Studor products are non-mechanical devices
- Is guaranteed for a lifetime equivalent to that of the drainage system in which it is installed

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
20357	P.A.P.A. (Positive Air Pressure Attenuator)	20357	764651-203578		1	10

TEC-VENT®

Simplify drainage and waste venting with the air admittance valve designed specifically for commercial applications. The unique design of the Studor® TEC-VENT™ provides plumbing ventilation to prevent the loss of water seals in traps without the need for costly roof penetration and vent piping.

- Classified in accordance with UL2043 for installation in plenums when the system is designed by a design professional and approved by local inspector
- Manufactured from flame-retardant polycarbonate resin
- High tensile strength
- Will vent up to 160 DFUs
- Exclusive vermin protection system
- Expands architectural design limits
- Reduces the number of fire-stopping applications
- UV rated for outside installations
- Limited lifetime warranty for replacement of defective valves
- Residential or Commercial Use
- ANSI/ASSE 1051, ANSI/ASSE 1050, NSF 14, Warnock Hersey, UL 2043, ICC-ES PMG, C-IAPMO, ICC-ES-PMG-1025

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
20344	TEC-VENT	20344	764651-203448		24	24

CHEM-VENT™

Simplify drainage and waste venting with the air admittance valve designed specifically for chemical waste systems. The unique design of the Studor® CHEM-VENT™ provides plumbing ventilation to prevent the loss of water seals in traps within chemical waste systems.

- Can be installed in chemical waste systems when the system is designed by a design professional
- WARNING!! Studor CHEM-VENT cannot be installed in applications where vented fumes are required to pass through biological and/or chemical filters before being released to the atmosphere
- Will vent up to 6 DFUs
- Exclusive vermin protection system
- Expands architectural design limits
- Manufactured from Flame Retardant Polypropylene conforming to ASTM D-4101
- The Sch 40 dimensions of the valve tail piece allows direct mounting on any fusion or MJ fitting
- Through the use of readily available adapters, the valve can also be connected to CPVC, glass and Duriron® systems (designer to check for chemical comparability)
- Limited lifetime warranty for replacement of defective valves
- Commercial use

Product Code #	Product Description	Model Number	UPC Barcode	Cubic ft./Case	Units/Case	Lbs/Case
20345	CHEM-VENT	20345	764651-203455		12	5

MAXI-FILTRA™

The Studor® MAXI-FILTRA™ operates as a two-way vent, which filters air in both directions. Its replaceable active carbon filter is designed to eliminate bad odors produced by the plumbing drainage system.

The MAXI-FILTRA is for outdoor use only, particularly for use with septic systems, but can also be installed on existing open vent pipes and in systems in which air admittance valves (AAVs) are installed.

- Can be installed vertically or horizontally
- Contains replaceable carbon filter that can last up to two years
- No hub type coupling required for 3" Pipe Connection
- Outdoor use only
- Fits 3" or 4" pipe
- UV Rated

Dedicated to “Making America Accessible”

The Truebro® product line consists of protective undersink pipe covers and plumbing enclosures for ADA compliance in handicap-accessible lavatories and sinks – for both new construction and retrofit markets.

Solutions for ADA-mandated undersink accessibility

The Lav Guard® 2, Lav Shield®, Basin Guard™, and Soft-Guard Plus™ are professional ADA-mandated protection systems designed for durability, aesthetics and sanitary installations. Specifying, stocking or installing Truebro is your assurance of protecting people with disabilities while providing quality, durability and improved aesthetics.

CATEGORY 24

Lav Guard® 2

Lav Guard® 2 E-Z series provides the durable, attractive, ADA-compliant undersink protection that the original Truebro Lav Guard® is famous for. Built-in E-Z Grip fasteners and internal E-Z Tear-To-Fit trimming features eliminate the need for tools, and provide for a clean, tamper-resistant, super-fast professional installation.

- E-Z Tear-To-Fit feature makes trimming super-fast and contractor-friendly—no tools required
- E-Z Grip built-in fasteners are quick, strong, and reusable
- Universal design fits more P-traps and thumb wings on plastic compression nuts

Basin Guard™

Basin Guard® is an ADA-compliant undersink piping enclosure for kitchen, classroom and lavatory sinks. Basin Guard can be installed where ever counter tops and sidewalls are present and the proper ADA sink is installed. Provides an attractive way to conceal piping and mechanical connections. Bottom opening allows for easy service access.

- ADA-conforming design protects wheelchair users from scalding and sharp, abrasive surfaces. When installed, all plumbing and mechanical components are concealed
- Strict code compliance minimizes risk. The Basin Guard complies with ADA article 4.19.4, California Plumbing Code 1504.2.1, ANSI A117.1, BOCA P 1203.4, and other state and local regulations. Basin Guard also has a flammability resistance, tested in accordance with Underwriters Laboratories for the UL 94 standard with a V-0 rating
- 36" and 42" enclosures are easy to specify, stock and install. May be used with virtually any ADA-compliant sink or restroom lavatory where countertops and sidewalls are present
- High-impact, UV-protected vinyl maximizes product life cycle. The Basin Guard is molded from impact-resistant, stain-resistant and chemical-resistant protective vinyl for durability, safety and long life
- Can be packaged up to 4 per box. Specify quantity when ordering

Lav Shield®

• Lav Shield® provides ADA-compliant undersink protection and meets requirements for wheelchair accessibility. Durable, single-piece construction conceals piping, electronic faucet connections, mixing valves, trap primers and instantaneous hot water heaters. (Lavatory "rough in" should be considered to allow mounting room for water heater—contact us for specifications.) Pre-cut Lav Shields are cut to fit various lavatory models, field adjustment may be needed for exact fit.

- "Total enclosure" deters tampering
- Can be packaged up to 4 per box. Specify qty when ordering
- Single-piece configuration for easy service
- High-impact, UV-protected vinyl

Soft Guard Plus™

Soft Guard Plus™ provides undersink pipe protection that should be specified for installation to all drainage piping including hot and cold water valves and supplies under lavatories to meet ADA compliance. Soft Guard Plus features a base material that has been tested in accordance with testing standard ASTM E84-07 with a 25 flame spread/450 smoke index and a 1/8" soft PVC vinyl material to maximize ADA and UPC compliance.

- 25 Flame/450 smoke index
- Anti-microbial finish
- Hook and loop fastening system
- Available in white or black
- Optional snap-to-lock fasteners provide tamper resistance
- Buy American Act Compliant
- Fits Sch. 40 P-traps and flexible braided hoses
