Material Number E145150, DWV Long Turn Tee-Wye C x C x C - Cast, 812

The tee-wye features solder cups and a long turn radius. This fitting allows for a connection to be made in continuous pipeline and branch to a different direction. The long turn radius enhances the takeaway of waste water. Please refer to NIBCO technical data sheets and catalogs for engineering and installation information. In addition to its inherent qualities of beauty, durability and low maintenance, copper's reusability makes it an ideal application in sustainable projects. NIBCO® copper
