SnapNrack®

Table of Contents

Ultra Rail Roof Mount System | *Rail-based Mounting*

The SnapNrack **Ultra Rail Roof Mount** portfolio satisfies virtually all residential roof types featuring labor saving components like the snap-in mounts and splices along with the open rail channel and accessories to create the industry's leading Wire Management Solutions.
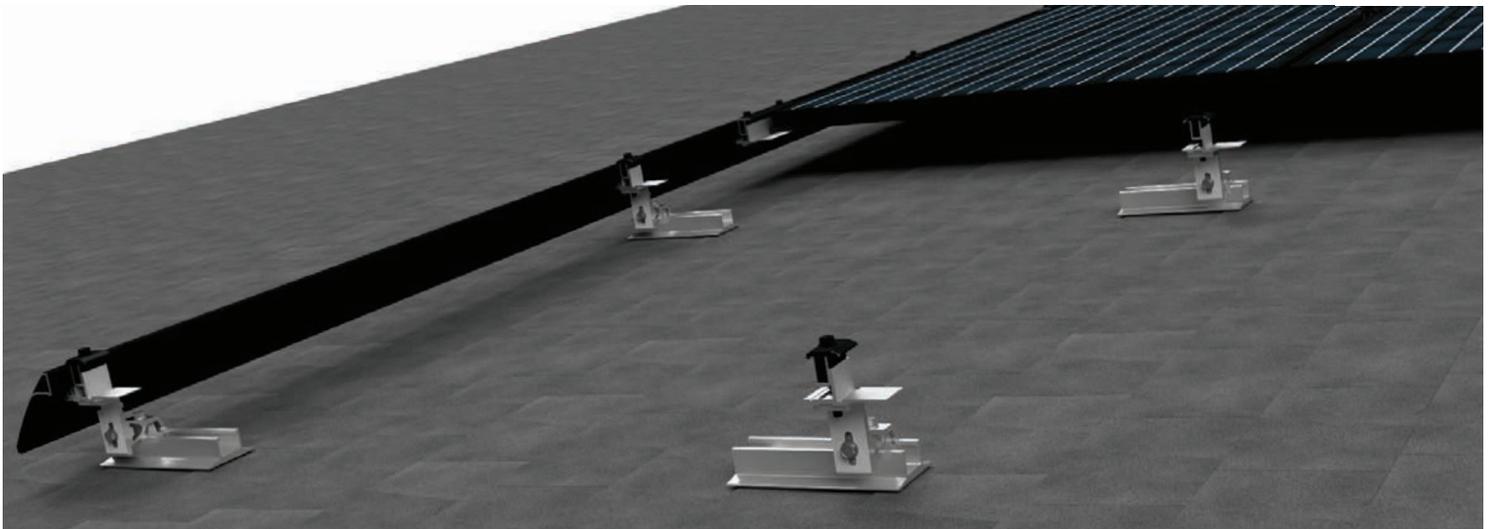

RL Universal Roof Mount System | *Railless Mounting*

SnapNrack's **RL Universal System (RL-U)** for composition shingle roofs provides the greatest labor efficiency with an installer focused process allowing the system to be installed by a single person, saving time on the roof. This railless system was designed with an installer-focused approach, featuring Universal Mounts and nothing larger than a module.

Flashing Based | *Roof Attachment Technology*

The SnapNrack **Umbrella Seal Technology** is an innovative flashing that uses a fully formed raised cone to prevent any water leakage. When paired with a single lag bolt & our Umbrella Washer, the Ultra Rail L Foot Mount is secured to the roof with the Umbrella Flashing in one step creating a multi-layer waterproof seal.
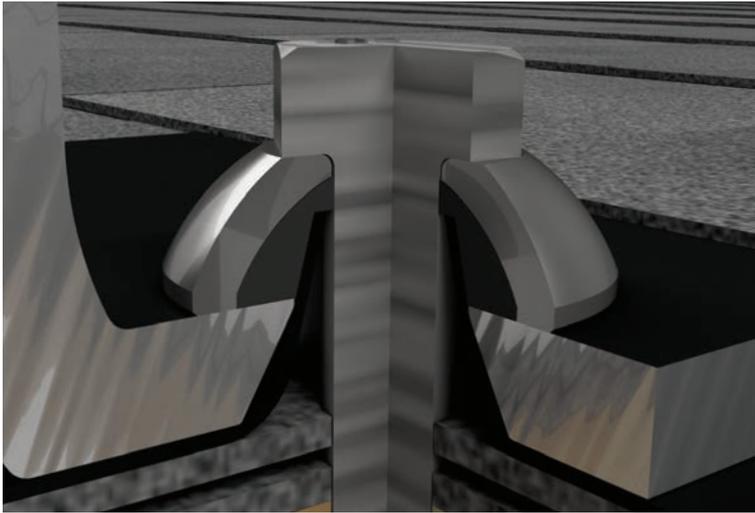

Integrated Flashing | *Roof Attachment Technology*

SnapNrack's new **SpeedSeal™ Technology** features an innovative design that incorporates flashing reliability into a single roof attachment by using a patent pending Lag Driven Sealant Technology. The SpeedSeal™ Foot or Track has a sealant cavity with compressible barrier secures sealant in place & fills voids.
Miami-Dade NOA NO: 20-1104.01

Direct to Deck | *Roof Attachment Technology*
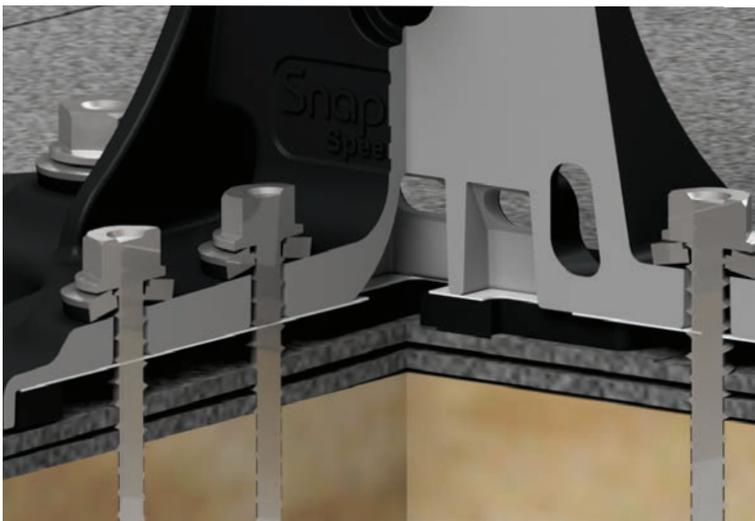

Now **SpeedSeal™ Technology** applies to roof attachments that mount directly to the deck with the **SpeedSeal™ DeckFoot & DeckTrack.** These rafter independent attachments allow for layout adjustability on the roof without the need to locate & attach to rafters. More importantly, installers have the ability to mount on specialty roof structures without standard rafters.

4
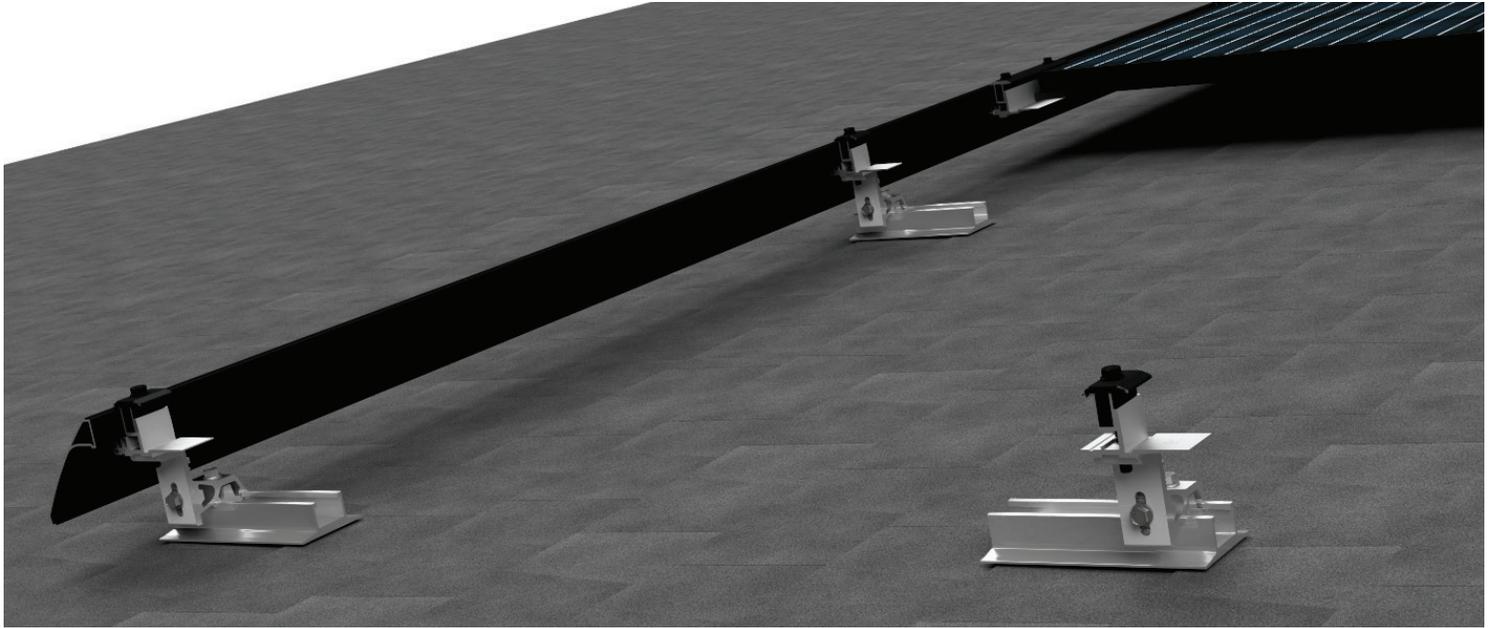

SnapNrack RL Universal
The Fastest Mounting System. Period

SnapNrack RL Universal Mounting System is designed to provide the fastest, most intuitive install experience on the roof. The direct mount system features four basic components for easy material management. Features incredible flexibility with a single Universal Mount that fits module heights from 30 - 40 mm and the highest spans of any current rail less system. The installer focused process allows the system to be installed by a single person.

• The RL Universal Skirt ensures a strong structure for leveling and alignment of first row of modules.
• Both SpeedSeal™ Technology or Umbrella Seal Technology roof attachments are designed for maximum versatility with 6" of North-South adjustability for all Mounts.
• A single Umbrella Lag screw secures flashing & Flash Track to roof in one complete action
• A single Mount is used at all locations on array and eliminates Mount/Link interference, bypassing the need for hybrid mounts found in competitive systems.
• The Links clamp onto the top of modules securing them in place while providing row-to-row bonding.

SnapNrack Ultra Rail
The Ultimate Value in Rooftop Solar

Ultra Rail is the ultimate rail solution for mounting solar modules on the roof. The entire system is a snap to install utilizing new pre-assembled Ultra Rail Mounts that include snap-in brackets for attaching rail. Snap-in module clamps provide an intuitive install experience installers know and love.

- Industry-leading aesthetics with Universal End Clamps and snap-in End Caps that make the mounting system invisible underneath the array
- Unparalleled wire management solutions with accessories such as Junction Boxes, Universal Wire Clamps, MLPE Attachment Kits, and Conduit Clamps
- Low profile rail maintains the open channel with room for running wires resulting in a top quality finished install
- UR-40 has the largest span capabilities of any light rail solution
- UR-60 is a heavy duty profile for higher loading conditions

Note that the fasteners are sold separately from the Composition Shingle Roof Attachments listed above. Required fasteners are as follows:

One (1) Umbrella Lag, 242-92266, is required for each Ultra Rail Umbrella L Foot & Comp Flashing attachment.

One (1) Sealing Washer Lag, 242-02168, is required for each Ultra Rail SpeedSeal™ Foot attachment.

Four (4) Sealing Washer Wood Screws, 242-02175, are required for each Ultra Rail SpeedSeal™ DeckFoot attachment.

SnapNrack Module Attachments - Ultra Rail - S200

Module Clamps are available for all PV module frame sizes (30-46 mm). **Universal End Clamps** are a unique one-size-fits-all that slips inside the module frame – completely out of sight. The rails are cut flush with the modules and finished with SnapNrack End Caps to create a system with a flush, clean line. All Module Clamps work with Ultra Rail and Series 200 Ground Mount. Module Clamps ship pre-assembled, ready to install.

SnapNrack Wire Management - Ultra Rail - S200

SnapNrack offers the largest set of mounting accessories to enhance the install process. SnapNrack **Wire Management Solutions** comprise a set of dedicated components to reliably and cost-effectively secure PV module and microinverter leads. All components are made of materials which have been selected for their ability to handle high UV exposure and extreme rooftop temperatures common under solar arrays.

Ultra Rail Tilt-Mount Kits include include the new **OmniBase**, a Standoff Shaft and Ultra Rail Tilt Clamp (Standoff Clamp, L Foot, and Ultra Rail Mounting Hardware).
Please refer to Ultra Rail Tilt Angle Table (Nominal).

For Foam Roofs, order **Ultra Rail Tilt-Mount Kit, 1 0"** for front leg and **Ultra Rail Tilt-Mount Kit, 14"** for rear leg to obtain a desired **low fixed tilt (5° - 14°).** Order **Ultra Rail Tilt-Mount Kit, 1 0"** for front leg and **Ultra Rail Tilt-Mount Kit, 23"** for rear leg to obtain a desired **high fixed tilt (15° - 28°).**

Ultra Rail Variable Tilt Hardware Kit for Metal Roof Attachments includes L Feet, Ultra Rail Mounting Hardware, and miscellaneous hardware to complete kit for front and rear legs. Metal roof attachments (without L Foot) and section of Ultra Rail for rear leg are to be ordered separately.

Please refer to Ultra Rail Tilt Angle Table (Nominal) to obtain desired tilt angles for 5° - 30° Fixed Tilt Kit Standoffs with Ultra Rail Tilt Clamps.

Variable Tilt hardware and Simple Tilt hardware *can be* installed with Standoffs and such, they are not approved in SnapNrack Structural Engineering Reports.

Simple Tilt requires 4ft spacing for portrait modules and 2ft spacing for landscape modules between mounts front to rear, and is only available as a direct mount to roof structure.

Ideal for use with E-Curb (pourable penetration sealant), Simple Tilt Attachments are for application on flat roofs only.

Note that Simple Tilt SKUs are referred to in Structural Documentation as Tilt Leg Plus.

SnapNrack Series 200
The Adaptable High Quality Solution for Ground Mount Installations

The Series 200 Ground Mount System is designed to attach easily to a standard 1 ½" galvanized pipe structure using structural pipe fittings. Using a standard three to four-module high assembly, the system is efficient and flexible while optimizing materials and minimizing system footprint. Industry leading installation times are achieved with unique snap-in fasteners.

• Assembles easily using snap-in bonding pipe clamps that connect the rails
• Fully compatible with all SnapNrack module clamps and accessories
• Ground rail channel keeps wires neatly organized providing a clean finished look to every install
• Industry's largest offering of Wire Management accessories include snap-in Junction Boxes, Universal Wire Clamps, as well as ground rail channel to keep wires neatly organized
• Maximum versatility with the ability to configure easily to desired tilt between 0 and 45 degrees
• Using pipe structural fittings, labor hours to install the system are typically less than required for a more complicated racking system not using standardized components
